

Member of Congress,

The most significant area involving the Department of Justice in these current times is the SF-95 form I submitted to the Department of Justice and to the White House. How the DOJ works out the issues of this SF-95 form has significant relevance to the various departments of the United States government and to the states of the United States. I myself may not be in your state, but my SF-95 form, and what the DOJ, along with the White House and the United States government do concerning the issues involving the form, will have relevance to all of the states.

I have 7 claims included in my SF-95 claim form. One involves a discovery I made more than 30 years ago and have worked with since, including with information sent to the White House up to the present times. With progress made, such as with the SF-95 form, the Congress of the United States will have a chance to decide on an honor amount of money to and for this discovery. There will be much more information congressional members have, along with the states, if the DOJ and the White House, along with the United States government, are successful with the SF-95 form I presented.

I will not say more right now. I have to wait to see what the DOJ and the White House do with the SF-95 form. They have since October 15th, 2025 six months to do something. They can make an offer to me for trying to settle the claim of the SF-95 form, and that situation continuing would be whatever it is depending on what they do or work out with me. If they do not present an acceptable offer to me, they would be causing a federal law case to be necessary.

If there are right directions gone with my SF-95 form, you, along with many other people of this country, will hear and see plenty of additional information. There will be very much relevant to the states and the American people. The current situation is with my SF-95 form active and with more than 4 months having gone by before the DOJ or the White House (along with the United States) has responded. I necessarily have to add in here that Trump is now complaining that he had to wait months for the U.S. Supreme Court to make a decision on his tariffs when, as said, I had to wait now more than 4 months so far with my SF-95 form submitted and with my 7 claims originally made more than a year ago.

Best of Times,

Joseph Mallon, U.S. resident
