v.

United States

Defendant

Motion to Authorize Mediation for this SF-95 Federal Court Filing

The present situation of when this current law case was filed in the United States District Court for the Eastern District of Pennsylvania is after more than six months since I, the plaintiff, Joseph Mallon, sent a Standard Form 95 (SF-95 form) to the United States at the Department of Justice and the White House in Washington, D.C. No response was made to me, and nothing was worked out concerning any of the issues involved. The SF-95 form not being acted on in any kind of mutual or good faith way, justified a Federal Court law case. The United States caused this law case, and in various ways, may have wanted this Federal Court law case. I did not cause this law case, and I advised the United States (vicariously) about this law case. Since the United States caused, or wanted, this law case, and not me, I am open to giving the United States more of what the United States wants. This does not mean only Trump, or the Trump administration, and means the United States. We can have mediation, pursuant to Local Civil Rule 53.3, if the United States is willing to, can, and does work successfully with this mediation on this Federal Court law case concerning myself.

As can be seen and understood with a start of the potential mediation, I have already done a lot of relevant work and have been through a long time, including six months of the active SF-95 form, so I have to receive a money amount such as, \$1,000,000, for a back pay and have to be securely paid a steady pay, such as weekly of \$2,000 for now, for a continuing pay as I am doing my relevant work. My original seven claims I included in the SF-95 form have to be included and advanced at being secured. I still have to have benefits, security,

authority, professional status, and money I earned and secured with the SF-95 form going beyond six months with inaction on the part of the Trump regime and the United States vicariously during my steady good faith efforts, communication, and advisory to the United States.

I, Joseph Mallon, authorize mediation for if the United States wants to attempt mediation for resolving the legal issues following my SF-95 form being unaddressed and not acted on through more than six months.

A handwritten signature in black ink that reads "Joseph Mallon". The signature is written in a cursive style with a small square mark at the beginning of the first letter.
