

Part 1 – Thursday, January 22, 2026

I demand the United States government show some responsibility. I should not have to, cannot comfortably, and will not just go outside of the United States to handle the matters involved or to explain to outside parties about the matters involved with the United States and its activities in and concerning America and Americans through the past years to the present. I demand the United States do the work that is supposed to be done. I want somewhere to go that is relevant to the United States doing work involved. I have to see that the United States is respecting my authority. I have to know that people associated with the United States and the United States are doing the work that is supposed to be done. If I communicate in some way, I have to see that my communication was regarded and treated right.

I do not want to and will not just wait for the SF-95 form to be worked out. Now is after 3 months of the SF-95 form, and nothing was worked out with me yet. Nothing has even been presented to me yet concerning the SF-95 form I originally mailed to the Department of Justice and had signed for October 15, 2025. Any continuance of the SF-95 form and including if a Federal Court is necessitated, is only because of the contemptuousness, irresponsibility, and carelessness of a corrupted United States. I want and am looking for something more to do right now without waiting any longer for the SF-95 form. What do you have to present to me so that I can communicate and be regarded and can advance my interests along with the United States and so that the SF-95 form does not have to continue advancing, including toward Federal Court?

Since this is the United States, I cannot believe that anything will be fair or impartial without me having full security and authority with the United States as I am supposed to have. I am the one who knows all about everything involved with this case, and this case is my case since more than 30 years ago, so I am the one who is supposed to and has to have full power concerning this case. In other words, I have to be able to make the judgments, issue the orders, make the legal opinion, and be dealt with and regarded as an officer of the court and by other people and officers of the court. I am supposed to be and have to be referred to as “Your Honor” because of that being proper and right. The word “Honorable” has to be included before any formal presentation of my name. I will not be with any additional party, and the situation is not myself against the United States or the United States against me but is myself with the United States and against the injustice. Plus, I have to be paid for any

and all work I do concerning this United States case. If you let the SF-95 form go to a Federal Court, and force a law case in a U.S. Court, these are my terms.

Aren't there supposed to be people talking to me about what is going on? Isn't there supposed to be communication when there are claims and issues involved such as I presented through the past year? Isn't there supposed to be some relevant work done? Who is doing the relevant work? Where is the work? Where is the communication? Where is the media coverage? Where are the groups of aware or highly concerned people? Isn't there supposed to be some political party activity? Why is there such a lack of participation or effort?

As you know, I have claims concerning the United States. I have to keep working on these claims. The United States government has been informed enough and through a long enough amount of time. I am a professional person and have expenses. I request the United States pay me my pay I should have through the times.

Part 2 – Thursday, January 22, 2026

I have sent my communication through the entire past year of 2025. I owe nothing to you or the United States government. The United States government owes me, and people associated with the United States are supposed to do the work they are supposed to do in order to do their jobs, or they are not doing their jobs. I demand my pay because we live in the United States society where money is supposed to be understood as necessary to work with. As I am doing the work that I am supposed to do and that I expressed as involved through the past year, I have rights to be paid. I have rights to my money because we have societal standards and necessities. An affording of expenses is necessary as the time goes by. The appropriate standards have to be maintained and should not be lessened. Too much or an excessive amount of work should not be necessary, and these areas are common knowledge in the U.S.A.

For everything or anything I do relevant to the United States government, I have to be paid. There is no excuse at this point. The people associated with the United States have played

around and wasted the time for too long. Nothing like that can be tolerated any longer. I demand my pay as the time is going by.

I am supposed to be rewarded and honored. I am not supposed to have to keep explaining about that and especially to people who appear to not take anything seriously and leave everything still not worked out and left still requiring. People associated with the United States should not be causing everything to not be enough and making everything be pointless. Enough is supposed to be enough, and there is supposed to be proper value. What is done has to count and serve proper purposes.

I want my money now. I demand enough of my money immediately from the United States government. A pay of money has to be gotten through to me.

I am someone who is supposed to be paid. I have rights to my money. I earned it and have the qualifications for it. I am worthy of it.

I already sent an SF-95 form to the Department of Justice. I demand being paid concerning anything I do involving that form. The United States already has obligation. Longer cannot have to be gone. I cannot have to be working and going to sometime in the future when I might be paid, and I have to be paid immediately and through the present times as I am doing the work.

In the SF-95 form, I said of it being appropriate for me to be being worked with concerning going toward being the exclusive President of the United States in 2028. I have to be being paid along the way. Of course, I have to be paid for doing my work. I am supposed to be paid to do my work. I have credentials and merits. I am a professional and business person. I am also a societally significant and historic person. For the work I do concerning the United States, I have to be paid.

Part 3 – Thursday, January 22, 2026

We are not mutual. I have an SF-95 form I presented. Three months have already gone by, and nothing was worked out with me. There was nothing on your part by Christmas 2025, out of very much from me through the whole year of 2025. That was unacceptable. The SF-95 form continues. I want and demand what is mine and all up to me and not you or anyone else. I have to have my authority. My authority has to be respected and honored.

People with the United States, and other parties, too, such as the Republican National Committee, and Harvard Law School, have to do their jobs dealing with me or in accord with me. These areas went through more than 30 years with merits and earnings before being recognized or credited. The onus has to be on these people to do their work because that is where the deficiency and skew has been. I am one person and excessively not dealt with in more than 30 years. I have never been dealt with yet so far. I have to be dealt with in the present times, which are not limited to the present times. Many people have to deal with the matters involved and have to be dealing with me, but I am still one person and have been through more than 30 years before being dealt with.

The financials herein included are considered for the year of 2025. Financials for 2026 in most cases add the year's worth of money for 2026, such as doubling, and others have to be calculated for the year accordingly for 2026.

Remember, too, there is the U.S. Department of Sovereignty. I am the Director of this U.S. department and have been since 2019. I try not to overly complicate everything here because look how much time was taken so far to work out the aspects involved. The time here directly has been through the whole year of 2025 since January to December 2025 and to now in 2026. Yes, though, there is the U.S. Department of Sovereignty, too.

Trump and the Trump administration have failed to work successfully with anything involved with the U.S. Department of Sovereignty since 2019. Trump or his administration put nothing through Congress and did not provide any support or pay when the funding was requested and much needed through those years to the present and while I was not present in, nor ever was present in, Washington, D.C. so far in my career or life. I was not invited. Trump and the Trump administration did not do the job they were supposed to do. Trump and the Trump administration continue presently to deprive and infringe on rights of the U.S. Department of Sovereignty, have no justification or authority to do such practices,

and have to be held accountable, such as anything involving the U.S. finances, monetary policy, economy, or relevant laws when parties—stakeholders—involved are supposed to and have to have a say. The situation for Trump and the Trump administration has been too easy because there was nothing and no one those people regarded or dealt with. A harder situation is to regard other parties involved, to not just leave everything neglected, and to not just ignore everything others communicate. That harder situation is not overly hard and is just doing the job appropriately and responsibly, which is not what Trump and the Trump administration have been doing.

Part 4 – Thursday, January 22, 2026

I myself have not been dealt with yet, or rewarded or honored although my material was present with Trump and the Trump administration since 2017 through to in 2020 and then was present again in the beginning of the second term in 2025, through the whole year to passed December 31<sup>st</sup>, 2025, and to now at the present time. I have not been paid yet, and I earned my money and have rights to my money beyond anything being left to Trump or anyone of the Trump administration. My money is my money and not theirs. Myself receiving money, wealth, support or even good will, is not up to people who never do anything any good or people who will never regard or take care of anything. I cannot be subject to people who do not regard anything and would just do everything for themselves while everyone else is left out of everything, and would leave tremendous amounts of time go by carelessly of the rights and interests of parties involved, such as myself.

When the U.S. Department of Sovereignty was established formally and officially back in the summer of 2019, it was designed to be civilian and peaceful. This country, U.S.A., was not designed to be a militaristic country. The military was intended to be only for guarding if and when needed and with there being maintained appropriate law and authority. The Space Force was made, which was militaristic, and that doing everything militaristically was not what this country was supposed to be doing, so the U.S. Department of Sovereignty initiated the Space Agency, which was civilian-oriented and designed for strictly peaceful purposes.

Everything that is good, nice, and successful cannot be just taken advantage of and made a mockery of by neglecting it and diverting the benefits, rewards, and replenishments to

other directions. The meritorious cannot just keep on being left with nothing instead and like there was nothing meritorious at all. You of the Trump administration cannot just keep on causing the successful people to be like they were and are unsuccessful and to be living and working unsuccessfully because of you.

What is mine is mine and not yours. Anything that is mine is not up to you, Trump or anyone of the Trump administration. Get out of my way. I want and demand what is mine. I demand payment of some of my money right now from the United States government, and you, Trump or the Trump administration, make a payment to me electronically, if you can set that up legitimately for a legitimate person, who is myself, or you send out a check overnighted in the mail, through a reliable means such as the U.S. Postal Service. You cannot just keep doing nothing, though, paying nothing, ignoring everything, or doing other things instead.

The civilian and peaceful side of the United States is much needed and has much importance to the quality of life in and of this country, U.S.A. Many advancements are needed and have potential. The Space Agency has now been around since 2019 and has not yet been dealt with or rewarded concerning any space missions, although the U.S. Space agency is a vital component of humanity's outer space advancement. This Space Agency is one of two divisions within the U.S. Department of Sovereignty, in addition to the department itself.

Part 5 – Thursday, January 22, 2026

The other division of the U.S. Department of Sovereignty is the U.S. Sovereign Services. The United States needs the functioning of this division because the U.S. government has been disconnected from most of Americans and America through the past more than a quarter-century. This division serves the purpose of connecting the U.S. citizens with the U.S. government. This division is a liaison between the U.S. government and the people. Nothing else serves this purpose on a full U.S. level. That is why and how the U.S. government is so divided from the people of the United States. This key division of the U.S. government has been left unsupported since its beginning times in 2019. Nothing has been serving these purposes of keeping the United States government connected to the people of the United States. The United States Department of Sovereign Services is a vital division of the United

States government and critically helps with the safe and fair administration and functioning of and in accord with U.S. Constitution amendments 9 and 10.

I request for my team to be set with the United States. The United States is supposed to be mutual and facilitative and is supposed to be on the same side as me. The United States is not supposed to be in opposition to me and is supposed to enable other people to be on my side or my team when I have very many rights, credentials, merits, and important issues requiring advancement and honor. The United States is supposed to enable people to be on a right team. As is known here, my side spans the past more than 30 years and includes the whole year of 2025 and to now in 2026, has not been dealt with or rewarded yet, and is requiring to be dealt with, rewarded, and honored.

I want to see, among other things, the official agreements, the relevant people doing the work involved, the media coverage, the websites, the accounts, and the increases I am supposed to be seeing. I am saying that as the time goes by without a sufficiency in directions of my claims, damages and injustices are being caused by who is causing this situation, and who would have to be considered as being Trump and the Trump administration and for which the United States has vicarious liability. I hereby order and demand everything I already have stated, including my high ranking U.S. government sovereign authority, and an official adding on to the SF-95 form of a national honor obligation the United States has to pay to God's Miracle Cross of a \$1 million or \$1 billion honor per day (according to the amount Congress decides under my authority) as the current time since October 23, 2025 goes by until there is a sufficiency regarding my claims concerning the United States (October 23<sup>rd</sup>, 2025 to...). I require evidence of my United States claims being secured and advanced (I, Joseph Mallon, have received no such evidence yet, until I state this specific date of the day and year).

I sent a completed SF-95 form. I complained that damages and injustices have been being caused to me by my claims concerning the United States not being appropriately or adequately worked on by people who were supposed to be associated with the United States and were supposed to do work on behalf of the United States. By leaving my claims concerning the United States unadvanced, the SF-95 form continues being caused to progress. If advancing my claims and rights pursuant my claims, as is herein expressed, furthering the SF-95 claim form lessens in necessity.

Part 6 - Thursday, January 22, 2026

I am open to and looking for settlement offers to my SF-95 form. As the SF-95 form continues, Trump and the Trump administration with the United States having vicarious liability are causing the SF-95 continuance. If a law case in a Federal Court results, that would only be because of Trump and the Trump administration with the United States having vicarious liability. The United States would be requested to pay for all Court costs and legal fees because the United States caused the law case to be necessary. I would be caused to continue with my prosecution from 30 years ago and insist on having full security and authority pursuant my high-level prosecutorial law work against the proven-as-corrupted (guilty as charged) United States requiring necessarily to be rehabilitated and freed from the corruption and enabled to be the real United States. Any work I would do would have to be highly rewarded, respected, and honored, and anything contrary, especially without good intent, would be considered as contemptuous. Trump and the Trump administration currently have the choice of being involved with settling this SF-95 claim with me or being in opposition to the 30 years of high-level prosecution law work concerning the United States and that has the backing of my doctoral law dissertation, which is and involved with lots of law.

Each day has importance, and a season is an era, an age, and an eternity to people.

I am sending this communication again because you at the White House did not yet respond. You did not work out anything yet.

What about doing something like having an urban planner talk to me about arranging events I mentioned?

I request a report be made to me to inform me of the status of my claims concerning the United States.

Look at my materials. Obviously, I have a lot to do and that I want to do. Trump and the Trump administration are making it so that nothing can be done, and the time is just going

by being wasted. That is being caused by nothing relevant being done yet, nothing involved being worked out, and no money directly involved being paid yet. Nothing can be done with nothing instead, and there is not supposed to be nothing instead.

I want, demand, and require this week's pay this week.

You have been acting non-mutually, not cooperating, and not facilitating. In so doing, you have been causing me much aggravation, extra work, and to go much longer. You have been making me have to fight against you and everyone else. I am supposed to be rewarded and honored, and I am supposed to be pleased with what I see.

I should not have to fight against everyone or anyone. I should not have to explain any further, and I should not have to go any longer without a sufficiency on the part of the United States and people associated with the United States. I am a good person and a successful person. There is no right to ruin my good traits or my success, including most especially with and concerning the United States.

I report Harvard Law School is violating my claims 2 and 7. Harvard Law School is ignoring communication I make to Harvard Law School and is not communicating while my claims are active and requiring functional communication. Harvard Law School is thus causing the time to go by with a deficiency of progress concerning my claims 2 and 7. The situation on Harvard Law School's part is also contemptuous and defamatory. These violations are resulting from the United States not doing its work involving my claims 2 and 7 concerning Harvard Law School. The United States is requested to do something about these violations and correct them. The United States is directly liable for these claim violations, as reported through 2025 into 2026 and until adequate resolution.

Part 7 – Thursday, January 22, 2026

My claims are long overdue at being advanced. With my claims advanced, of course, the situation would be good for me and with me. That is what I have rights to and expect to see. I have already been through a very long time, so I want to see progress and improvement in

the present times. I want to be treated like I am a very important person and be honored as I am supposed to be in regard of my extraordinary societal merits involved.

You at the White House, including Trump and the Trump administration, have not worked out anything yet or paid any of the money due or owed. I have claims concerning the United States. I report violations and a deficiency on the part of the United States resulting from Trump and the Trump administration in 2025 and to 2026.

From now on we will take a \$1 million portion of the United States money due me and make a fund of God's Miracle Cross money currency. Each dollar or cross has the value of \$1. Gold or other items are valued according to their value in dollars and crosses. The United States as a nation owes me my \$1 million and the backing of the value of my \$1 million in the form of crosses (God's Miracle Crosses currency), regardless of Trump, the Trump administration or anyone or anything else. The God's Miracle Crosses and Faces currency is not crypto currency and is authentic United States and Universal money – currency, fully backed by government powers and divine life forces according to the values. The United States as a country has a duty to provide its security for functioning and investing of my \$1 million fund and for additional investors from anywhere in the world to invest securely into this universal currency fund. This funded \$1 million is a starting point and declared by law with valid authority concerning the United States. Consider this declaration hereby ordered, as of 09/19/2025.

Considering the U.S. Department of Sovereignty, my \$1 million fund will eventually transcend into a U.S. Department of Sovereignty \$1 billion fund. We will take a \$1 billion portion of the United States money due to the department and enlarge the fund of God's Miracle Cross money currency. As before, each dollar or cross has the value of \$1. Gold or other items are valued according to their value in dollars and crosses. The United States as a nation owes the U.S. Department of Sovereignty its \$1 billion and the backing of the value of its \$1 billion in the form of crosses (God's Miracle Crosses currency), regardless of Trump, the Trump administration or anyone or anything else. The God's Miracle Crosses and Faces currency is not crypto currency and is authentic United States and Universal money – currency, fully backed by government powers and divine life forces according to the values. The United States as a country has a duty to provide its security for functioning and investing of the United States Department of Sovereignty's \$1 billion fund and for additional investors from anywhere in the world to invest securely into this universal

currency fund. This funded \$1 billion is a starting point and declared by law with valid authority concerning the United States. Consider this declaration hereby ordered.

This fund will eventually have full United States financial industry capabilities. There will be credit cards and debit cards, checking and savings accounts, mutual funds, annuities, and life insurance policies. Brokerage accounts are workable, also. Access to the stock market will be possible, including with specialized assistance for acquiring and trading stocks and bonds. Various kinds of retirement accounts additionally have strong possibilities. This fund with American dollars and cents and God's Miracle Cross crosses and faces has to have full capabilities. People associated with the United States, like other professional people, have to do the work they are supposed to do.

Part 8 – Thursday, January 22, 2026

This fund is not for or by a bunch of gamblers. Sound investment is favored. Investment into this fund has to be solid like investment into the sovereignty governances upholding the fund, which are the sovereign governances that value the dollars and cents and crosses and faces currency. When buying something, the buyer wants and deserves what is paid for. When a buyer has something, the buyer does not want to lose anything and wants a fair and competitive gain, especially as time passes by. The value does not have to mean with interest or just based on time but has to mean in value. Buyers/investors want to see the original value and then with good increase. In this style, the fund has to be set and administered.

The start of the fund is the \$1 million the United States allocates to me. Of that \$1 million, the crosses and faces currency has to be made. The \$1 million value cannot lessen and has to only increase fairly, and people/investors have to be able to invest into this fund and have what they invest and with fair increase as the currency fund value increases. The base value of \$1 million has to be maintained just like the base amount invested has to always be maintained. The fund has to be kept securely moving positively with its fair and reasonable increase.

The start of the department fund is the \$1 billion the United States allocates to the department. Of that \$1 billion, the crosses and faces currency has to be made. The \$1 billion value cannot lessen and has to only increase fairly, and people/investors have to be able to invest into this fund and have what they invest and with fair increase as the currency fund value increases. The base value of \$1 billion has to be maintained just like the base amount invested has to always be maintained. The fund has to be kept securely moving positively with its fair and reasonable increase.

This fund does not just come from money, currency, or text characters, digits, or pixels, and it comes from the United States and God's Miracle Cross. The currency is and has to be authentic currency with full sovereign governance value. Appropriate professional people have to do the work involved and have to be appropriately credentialed, knowledgeable, and experienced. The investors have to be responsible and accountable on their levels and as would be expected and necessary for members of the public.

This fund must have a starting \$1 million wealth level growing into the department's \$1 billion wealth level maintained at all times and a matching of wealth with each investment so that way the investor always has the investment as it is safeguarded during its continuance and growth in the fund. This fund can fluctuate in value so the wealth invested can decrease, which shows a securities side of this fund, but safety measures will activate. If a decrease, the not allowing a decrease for 10 or 15% will activate. After the 10 or 15% decrease, if the decreasing continues, the gold standard will kick in to raise the wealth level up to the full invested level and to continue to grow as best as possible ongoing and naturally with normal continuance.

Part 9 – Thursday, January 22, 2026

According to the Howey test made by the U.S. Supreme Court, in *Howey v. SEC*, an investment is regulatable as a security if it meets four criteria. 1. Money is invested. 2. The investment fund is run by an involved group of people, 3. A profit is anticipated by those who invest, and 4. The anticipated wealth increases are a result of a sponsor such as the United States upholding and servicing the fund by law, obligation, duty, and honor. Setting this fund as also being known as securities furthers the ability to work with, establish, and advance this fund and currency in the forms of United States dollars and cents and God's

Miracle Cross crosses and faces. Banking laws and practices also apply and must continue being used with this fund and its currency.

Most financial accounts in the United States send out status reports at least quarterly if there is not account activity, and if the account has activity, status reports are sent out monthly. The United States has gone far longer than monthly or quarterly without sending status reports, and when the accounts have had activity. I request the monthly status reports from the United States immediately.

I want my money today. You owe me money. I demand money that is owed and due me. I am supposed to be honored. What about the United States fulfilling some of its responsibilities?

In accord with my claims 2 and 7, I contacted Harvard Law School. You here at the White House and of the Trump administration should have contacted Harvard Law School first on my behalf, but you did not, and I was not going to wait longer. If anyone from Harvard Law School contacts you here at the White House in reference to anything involving me, I request you treat the person respectfully and that you honor everything involved. My materials must be accessible on request, and appropriate communication and functioning must be active. You should have money matters handled and able to be handled adequately concerning Harvard Law School.

I request an accounting of my money the United States owes me. The United States must state at least some of the money the United States owes me and that I would confirm. The money can be considered pursuant to my claims concerning the United States and initiated as claims since the summer of 2024 and active with the Trump administration since the start of the second term.

With some of my money the United States owes me, I request \$1 million be set for Harvard Law School to work on my S.J.D. degree being bestowed to me. This money has to be immediately set for fees that Harvard Law School has. No money is to be paid to Harvard if Harvard Law School does not do the work involved with me earning my S.J.D. degree from

Harvard Law School, and there will have to be a U.S. national legal committee instead work on current era credentialing issues, including law credentialing, in this country, U.S.A.

Pursuant to my claim number 4 concerning the United States, I want another million dollars immediately paid to me. I want to get my finances together with this \$1 million. I want to pay off my house. I need a new car. I want to go to a few stores comfortably.

Pursuant to claim number 1, I want \$1 million to be set for expenses with the Republican National Committee as the RNC is working with me to increase the knowledge and awareness of God's Miracle Cross concerning the United States, including through the past more than 30 years.

I also heard that SEPTA (Southeastern Pennsylvania Transportation Authority) needs money right now. I request \$1 million be set aside for SEPTA to advertise God's Miracle Cross on its public transportation vehicles throughout southeastern Pennsylvania. This project will help the United States with claim number 1 in terms of God's Miracle Cross being nationally worked with concerning the United States.

Part 10 – Thursday, January 22, 2026

I want another few million dollars to go to claim number 6. I am allocating \$3 million to the United States supporting and promoting healthcare research. Specifically, I want \$2 million to go to regenerative stem cells research, and I want \$1 million to go to regenerative kidney stem cells research.

I want another \$1 million pursuant to claim number 1. I want to sponsor some events throughout the country. Knowledge and awareness of God's Miracle Cross will be increased. Some of these events need to be arranged in the immediate times. Events that are already around can be worked with, and God's Miracle Cross can be added. There can be new events, too, that are unique to God's Miracle Cross. These events can be of various types, such as business, festive, sports events, or seasonal events. The funding is needed

for hiring staff, hiring performers, paying for food to be served, for decorations, advertising, and for souvenirs.

At least \$1 million of my back pay must be immediately paid to me. My professional position concerning the United States has to be straightened out pursuant to claim number 4.

I request the specified \$9 million be set immediately for the purposes I stated and pursuant to my claims concerning the United States.

My claims are not worked through yet. I am not seeing a sufficiency right now. I request communication immediately.

I have claims concerning the United States and have been reporting about them through the whole year of 2025.

I report violations of Claim 7 and Claim 2. The United States is liable for violations of the claims because these are claims concerning the United States. What is the United States going to do about violations?

I myself have enough to deal with the United States and every country of the world.

I declare my rights pursuant my claims.

Requested Money for United States to Immediately Set

I request that in accord with my United States claim number 5, \$500 million be immediately paid to me in the form of an annuity, which is a fixed deferred annuity with a 10-year accumulation period, estimated at more than doubling my money before annuitizing if I choose at the end of the 10-year accumulation period. A bonus of \$15,000,000 is to be

added for the 4 months of time taken to start the \$500 million annuity in 2025 and another \$15,000,000 for delayed time of accumulation in 2026.

I request that in accord with my United States claim number 2, \$500 million be immediately paid to me in the form of a variable annuity, which is a deferred variable annuity and has a 10-year accumulation period. A bonus of \$15,000,000 is to be added for the 4 months of time taken to start the \$500 million annuity in 2025 and another \$15,000,000 for delayed time of accumulation in 2026.

\$500,000,000 University of Phoenix, Claim 5, Fixed Deferred Annuity, Plus \$30,000,000 for bonus from 4 months of 2025 and 2026 delayed starting

\$1,000,000,000 Total requested for United States to immediately set for Annuities

Plus \$30,000,000 bonus, for 2025 and 2026 for each of the two annuities (\$30,000,000 and \$30,000,000), which makes the total be \$1,060,000,000.

For the Space Agency, Division of the U.S. Department of Sovereignty, requested, demanded, and ordered is \$1 billion for back funding and honor since 2019 and a set of deep space possible rockets with value of at least \$5 billion each. This rocketry is exclusively for the Space Agency intents and strictly for civilian and peaceful purposes. Guarding is required for only if and when needed and ordered, and law and rights must be maintained.

For the delay into 2026, another \$1 billion and 3 more \$5 billion deep space possible rockets

Total as of 2026 is \$2 billion and 6 \$5 billion deep space possible rockets

I also request and expect the United States to account for my licensing. I want all my licensing secure. I am tired of worrying about my licensing, and I do not want my licensing to be in jeopardy at all, especially because of the United States being caused to act irresponsibly. I mentioned previously about securing a national level lawyer's license for me, a United States lawyer's license, which is valid and active throughout the United States and has strong persuasive authority anywhere else. I also have insurance licensing and securities licensing, and I expect my insurance and securities licensing to be secured, Series 7, 6, 63, 26, and 65. I am tired of worrying about my licensing, and I think it is ridiculous for the United States being caused to be so negligent that the licensing is constantly kept in jeopardy. The United States cannot be let to continue not taking care of anything the United States can and should take care of responsibly. For the ongoing year of 2026 and beyond, I want the licensing set as being for life so that when achieving the accomplishment, that is never taken away, is not arbitrary or flimsy, and is a good part of life.

I repeat my claims following.

(1) God's Miracle Cross – involving the United States – has to be nationally worked with since more than 30 years ago

(2) Law Cases with United States – U.S. Attorney has to be assigned to work with me on law cases for U.S. Courts and must communicate with me to advance the law involved

(3) United States Official Professional Position – Must be fully set officially with the United States, and some back-pay or a bonus has to be paid to me

(4) United States Past Debt to Me – Joseph Mallon – payments and arrangements have to be set and advanced in regard of the past more than 30 years of relevant and official work I did, including up to U.S. Chief Executive Director levels

(5) University of Phoenix Claim – \$500 million has to be paid to me

(6) Hospital Claim – \$109,441.71 discounted 80% leaving \$21,888.34 for United States to pay, plus work on healthcare advancement is needed and required on U.S. national levels; adding on to this healthcare claim is necessary because of additional costs being added for the months of January and February, and any additional months, of 2025 when these claims were not sufficiently advanced or secured

(7) Student Loans – Student Loans Defense Number: 01400527 – my approximately \$250 thousand student loans were fully, justly, successfully, and worthily discharged; I have a doctoral dissertation done in 2012 and earning my business doctorate. I have a post-doctoral dissertation done in 2019 and earning my business post-doctorate. I have a law edition of my post-doctoral dissertation done in 2024, earning my law doctorate, and have to have secured a doctoral law degree such as an S.J.D. doctoral law degree from a qualified American law school such as Harvard Law School.

Claims concerning the United States

I request, demand, and order that the United States immediately communicate to me respectfully and honorably.

Thank you.
