II. Basis for Jurisdiction:

Federal courts are courts of limited jurisdiction. Only two types of cases can be heard in federal court: cases involving a federal question and cases involving diversity of citizenship of the parties. Under 28 U.S.C. §1331, a case involving the United States Constitution or federal laws or treaties is a federal question case. Under 28 U.S.C. §1332, a case in which a citizen of one state sues a citizen of another state and the amount of damages is more than \$75,000 is a diversity of citizenship case.

A. What is the basis for federal court jurisdiction? (*check all that apply*)

Q. Federal Questions Q. Diversity of Citizenship

B. If the basis for federal jurisdiction is Federal Question, what federal Constitutional, statutory, or treaty right is at issue?

C. If the basis for jurisdiction is Diversity of Citizenship, what is the state of citizenship of each party?

Plaintiff(s) state(s) of citizenship Pennsylvania

Defendant(s) state(s) of citizenship Washington, D.C.

After the plaintiff expressly stated seven claims within the duties of the defendant and the plaintiff sending important and active communication through January to October 2025, a Standard Form (SF) 95 was made and sent to the (vicariously liable) United States. Six months went by with no response from the United States and nothing worked out.

III. Statement of Claim:

State as briefly as possible the facts of your case. Describe how each of the defendants named in the caption of this complaint is involved in this action, along with the dates and locations of all relevant events. You may wish to include further details such as the names of other persons involved in the events giving rise to your claims. Do not cite any cases or statutes. If you intend to allege a number of related claims, number and set forth each claim in a separate paragraph. Attach additional sheets of paper as necessary.

A. Where did the events giving rise to your claim(s) occur? In the country of the United States; My location was in the Eastern District of Pennsylvania, and the United States was mainly represented at the White House in Washington, D.C.

B. What date and approximate time did the events giving rise to your claim(s) occur? Through the entire year of 2025 and into 2026; Relevant communication was made to the White House since January 2025; an SF-95 form was signed for at the U.S. Department of Justice on 10-15-2025, and six months passed by with no response and no offer made.

C. Facts: The United States being vicariously liable for Donald J. Trump, the Trump Administration, and the White House has the duty to take on this Federal Court law case because of not responding within six months to an SF-95 form submitted to the United States. The United States was fully informed of this SF-95 form and all the details involving it. The form and its contents were fully expressed about, including the fact that if there is not a response and no offer is made to settle

What happened to you?

the SF-95 form issues, then a U.S. Federal Court law case is caused. If causing this Federal Court law case, it is the United States being vicariously liable for Trump, the Trump administration, and the White House that caused the law case. Because the United States caused this Federal Court law case, requested is that the United States pay for all court costs and legal fees. I also advised the United States that if this law case is caused, the United States would have to pay me for my time and work on this Federal Court law case, and would have to refer to me as “Your Honor” or “Honorable” when referring to me in any official way concerning this Federal Court law case.

For additional facts and information, I well-advised the United States that I have a doctoral law dissertation completed in the end of 2024.

IV. Injuries: If you sustained injuries related to the events alleged above, describe them and state what medical treatment, if any, you required and received.

The injuries sustained because of the events described were all that is involved with myself, and as was described as meritorious and honorable, being caused to not provide proper benefits through significant amounts of time of seasons and years, which lessened - damaged - the life, the standard of living, the professional status, and the wealth level. For further elaboration and clarification, please see the supporting documentation.

V. Relief:

State what you want the Court to do for you and the amount of monetary compensation, if any, you are seeking, and the basis for such compensation.

I request for the Court to assist at enforcing the law. I want the Court to reach a point of working with this law case as being from and of the actual United States, with myself being recognized as having full authority. I want to turn this law case over to the United States for the United States to officially work on this law case, and with this law case remaining under my authority. What is involved here with the United States and myself has to advance being known and understood and at being respected and honored. Everything cannot be done all at once, but a securing of the situation is needed, and then working on and working out everything further is necessary. I do not expect the Court to take care of everything instantly, but I expect the Court to secure the situation at being on track as efficiently as possible

and with parties involved, such as the United States, doing what is supposed to be done – fulfilling duties and responsibilities. I want the Court to secure the United States at adequately working mutually and respectfully with me, and including with any money amounts involved to be taken care of or being worked on.

For a money amount to state specifically here, I repeat the sum-certain amount on my SF-95 form, which is \$1 trillion. I do not expect the \$1 trillion to be completely worked out and paid immediately, but I expect for the United States to be secured at working on it and for the United States to pay in the immediate times the Court costs and legal fees and a pay for my law work concerning the United States and including for this Federal Court law case.

For specific details and money amounts involved, please see the supporting documentation.

I declare under penalty of perjury that the foregoing is true and correct.

STANDARD FORM 95 REV. (2/2007) BACK

Part 5-1 – Wednesday, October 8, 2025

I am sending this communication again because you at the White House did not yet respond. You did not work out anything yet.

What about doing something like having an urban planner talk to me about arranging events I mentioned about?

I request a report be made to me to inform me of the status of my claims concerning the United States.

Look at my materials. Obviously, I have a lot to do and that I want to do. Trump and the Trump administration are making it so that nothing can be done, and the time is just going by being wasted. That is being caused by nothing relevant being done yet, nothing involved being worked out, and no money directly involved being paid yet. Nothing can be done with nothing instead, and there is not supposed to be nothing instead.

I want, demand, and require this week's pay this week.

You have been acting non-mutually, not cooperating, and not facilitating. In so doing, you have been causing me much aggravation, extra work, and to go much longer. You have been making me have to fight against you and everyone else. I am supposed to be rewarded and honored, and I am supposed to be pleased with what I see.

I should not have to fight against everyone or anyone. I should not have to explain any further, and I should not have to go any longer without a sufficiency on the part of the United States and people associated with the United States. I am a good person and a successful person. There is no right to ruin my good traits or my success, including most especially with and concerning the United States.

I report Harvard Law School is violating my claims 2 and 7. Harvard Law School is ignoring communication I make to Harvard Law School, and Harvard Law School is not communicating while my claims are active and requiring functional communication. Harvard Law School is thus causing the time to go by with a deficiency of progress concerning my claims 2 and 7. The situation on Harvard Law School's part is also contemptuous and defamatory. These violations are resulting from the United States not doing its work involving my claims 2 and 7 concerning Harvard Law School. The United States is liable for these claims violations. The United States is requested to do something about these violations and correct them.

My claims are long overdue at being advanced. With my claims advanced, of course, the situation would be good for me and with me. That is what I have rights to and expect to see. I have already been through a very long time, so I want to see progress and improvement in the present times. I want to be treated like I am a very important person and be honored as I am supposed to be in regard of my extraordinary societal merits involved.

You at the White House, including Trump and the Trump administration, have not worked out anything yet or paid any of the money due or owed. I have claims concerning the United States. I report violations and a deficiency on the part of the United States resulting from Trump and the Trump administration.

Part 6-2 – Wednesday, October 8, 2025

From now on we will take a \$1 million portion of the United States money due me and make a fund of God's Miracle Cross money currency. Each dollar or cross has the value of \$1. Gold or other items are valued according to their value in dollars and crosses. The United States as a nation owes me my \$1 million and the backing of the value of my \$1 million in the form of crosses (God's Miracle Crosses currency), regardless of Trump, the Trump administration or anyone or anything else. The God's Miracle Crosses and Faces currency is not crypto currency and is authentic United States and Universal money – currency, fully backed by government powers and divine life forces according to the values. The United States as a country has a duty to provide its security for functioning and investing of my \$1 million fund and for additional investors from anywhere in the world to invest securely into this universal currency fund. This funded \$1 million is a starting point and declared by law

with valid authority concerning the United States. Consider this declaration hereby ordered.

Most financial accounts in the United States send out status reports at least quarterly if there is not account activity, and if the account has activity, status reports are sent out monthly. The United States has gone far longer than monthly or quarterly without sending status reports, and when the accounts have had activity. I request the monthly status reports from the United States immediately.

I want my money today. You owe me money. I demand money that is owed and due me. I am supposed to be honored. What about the United States fulfilling some of its responsibilities?

In accord with my claims 2 and 7, I contacted Harvard Law School. You here at the White House and of the Trump administration should have contacted Harvard Law School first on my behalf, but you did not, and I was not going to wait longer. If anyone from Harvard Law School contacts you here at the White House in reference to anything involving me, I request you treat the person respectfully and that you honor everything involved. My materials must be accessible on request, and appropriate communication and functioning must be active. You should have money matters handled and able to be handled adequately concerning Harvard Law School.

I request an accounting of my money the United States owes me. The United States must state at least some of the money the United States owes me and that I would confirm. The money can be considered pursuant to my claims concerning the United States.

With some of my money the United States owes me, I request \$1 million be set for Harvard Law School to work on my S.J.D. degree being bestowed to me. This money has to be immediately set for fees that Harvard Law School has. No money is to be paid to Harvard if Harvard Law School does not do the work involved with me earning my S.J.D. degree from Harvard Law School.

Pursuant to my claim number 4 concerning the United States, I want another million dollars immediately paid to me. I want to get my finances together with this \$1 million. I want to pay off my house. I need a new car. I want to go to a few stores comfortably.

Pursuant to claim number 1, I want \$1 million to be set for expenses with the Republican National Committee as the RNC is working with me to increase the knowledge and awareness of God's Miracle Cross concerning the United States, including through the past more than 30 years.

I also heard that SEPTA (Southeastern Pennsylvania Transportation Authority) needs money right now. I request \$1 million be set aside for SEPTA to advertise God's Miracle Cross on its public transportation vehicles throughout southeastern Pennsylvania. This project will help the United States with claim number 1 in terms of God's Miracle Cross being nationally worked with concerning the United States.

Part 7-3 – Wednesday, October 8, 2025

I want another few million dollars to go to claim number 6. I am allocating \$3 million to the United States supporting and promoting healthcare research. Specifically, I want \$2 million to go to regenerative stem cells research, and I want \$1 million to go to regenerative kidney stem cells research.

I want another \$1 million pursuant to claim number 1. I want to sponsor some events throughout the country. Knowledge and awareness of God's Miracle Cross will be increased. Some of these events need to be arranged in the immediate times. Events that are already around can be worked with, and God's Miracle Cross can be added. There can be new events, too, that are unique to God's Miracle Cross. These events can be of various types, such as business, festive, sports events, or seasonal events. I declare my rights pursuant my claims.

Claims concerning the United States

I request, demand, and order that the United States immediately communicate to me respectfully and honorably.

Thank you.

Part 9-1 – Friday, December 26, 2025 – Nothing yet

Remember, too, there is the U.S. Department of Sovereignty. I am the Director of this U.S. department and have been since 2019. I try not to overly complicate everything here because look how much time was taken so far to work out the aspects involved. The time here directly has been through this whole year of 2025 since January to now in December 2025. Yes, though, there is the U.S. Department of Sovereignty, too.

When the U.S. Department of Sovereignty was established formally and officially back in the summer of 2019, it was designed to be civilian and peaceful. This country, U.S.A., was not designed to be a militaristic country. The military was intended to be only for guarding if and when needed and with there being maintained appropriate law and authority. The Space Force was made, which was militaristic, and that doing everything militaristically was not what this country was supposed to be doing, so the U.S. Department of Sovereignty initiated the Space Agency, which was civilian-oriented and designed for strictly peaceful purposes.

The civilian and peaceful side of the United States is much needed and has much importance to the quality of life in and of this country, U.S.A. Many advancements are needed and have potential. The Space Agency has now been around since 2019 and has not yet been dealt with or rewarded concerning any space missions, although the U.S. Space agency is a vital component of humanity's outer space advancement. This Space Agency is one of two divisions within the U.S. Department of Sovereignty, in addition to the department itself.

The other division of the U.S. Department of Sovereignty is the U.S. Sovereign Services. The United States needs the functioning of this division because the U.S. government has been disconnected from most of Americans and America through the past more than a quarter-century. This division serves the purpose of connecting the U.S. citizens with the U.S. government. This division is a liaison between the U.S. government and the people. Nothing else serves this purpose on a full U.S. level. That is why and how the U.S. government is so divided from the people of the United States. This key division of the U.S. government has been left unsupported since its beginning times in 2019. Nothing has been serving these purposes of keeping the United States government connected to the people of the United

States. The United States Department of Sovereign Services is a vital division of the United States government and critically helps with the safe and fair administration and functioning of and in accord with U.S. Constitution amendments 9 and 10.

I request for my team to be set with the United States. The United States is supposed to be mutual and facilitative and is supposed to be on the same side as me. The United States is not supposed to be in opposition to me and is supposed to enable other people to be on my side or my team when I have very many rights, credentials, merits, and important issues requiring advancement and honor. The United States is supposed to enable people to be on a right team. As is known here, my side spans the past more than 30 years and includes this whole year of 2025, has not been dealt with or rewarded yet, and is requiring to be dealt with, rewarded, and honored.

Part 10-2 – Friday, December 26, 2025 – Nothing worked out

I want to see, among other things, the official agreements, the relevant people doing the work involved, the media coverage, the websites, the accounts, and the increases I am supposed to be seeing. I am saying that as the time goes by without a sufficiency in directions of my claims, damages and injustices are being caused by who is causing this situation, and who would have to be considered as being Trump and the Trump administration and for which the United States has vicarious liability. I hereby order and demand everything I already have stated, including my high ranking U.S. government sovereign authority, and an official adding on to the SF-95 form of a national honor obligation the United States has to pay to God's Miracle Cross of a \$1 million or \$1 billion honor per day (according to the amount Congress decides under my authority) as the current time since October 23, 2025 goes by until there is a sufficiency regarding my claims concerning the United States. I require evidence of my United States claims being secured and advanced.

I sent a completed SF-95 form. I complained that damages and injustices have been being caused to me by my claims concerning the United States not being appropriately or adequately worked on by people who were supposed to be associated with the United States and were supposed to do work on behalf of the United States. By leaving my claims concerning the United States unadvanced, the SF-95 form continues being caused to

progress. If advancing my claims and rights pursuant my claims, as is herein expressed, furthering the SF-95 claim form lessens.

Each day has importance, and a season is an era, an age, and an eternity to people.

I am sending this communication again because you at the White House did not yet respond. You did not work out anything yet.

What about doing something like having an urban planner talk to me about arranging events I mentioned?

I request a report be made to me to inform me of the status of my claims concerning the United States.

Look at my materials. Obviously, I have a lot to do and that I want to do. Trump and the Trump administration are making it so that nothing can be done, and the time is just going by being wasted. That is being caused by nothing relevant being done yet, nothing involved being worked out, and no money directly involved being paid yet. Nothing can be done with nothing instead, and there is not supposed to be nothing instead.

I want, demand, and require this week's pay this week.

You have been acting non-mutually, not cooperating, and not facilitating. In so doing, you have been causing me much aggravation, extra work, and to go much longer. You have been making me have to fight against you and everyone else. I am supposed to be rewarded and honored, and I am supposed to be pleased with what I see.

I should not have to fight against everyone or anyone. I should not have to explain any further, and I should not have to go any longer without a sufficiency on the part of the United States and people associated with the United States. I am a good person and a

successful person. There is no right to ruin my good traits or my success, including most especially with and concerning the United States.

Part 11-3 – Friday, December 26, 2025 – Nothing regarded

I report Harvard Law School is violating my claims 2 and 7. Harvard Law School is ignoring communication I make to Harvard Law School, and Harvard Law School is not communicating while my claims are active and requiring functional communication. Harvard Law School is thus causing the time to go by with a deficiency of progress concerning my claims 2 and 7. The situation on Harvard Law School's part is also contemptuous and defamatory. These violations are resulting from the United States not doing its work involving my claims 2 and 7 concerning Harvard Law School. The United States is liable for these claims violations. The United States is requested to do something about these violations and correct them.

My claims are long overdue at being advanced. With my claims advanced, of course, the situation would be good for me and with me. That is what I have rights to and expect to see. I have already been through a very long time, so I want to see progress and improvement in the present times. I want to be treated like I am a very important person and be honored as I am supposed to be in regard of my extraordinary societal merits involved.

You at the White House, including Trump and the Trump administration, have not worked out anything yet or paid any of the money due or owed. I have claims concerning the United States. I report violations and a deficiency on the part of the United States resulting from Trump and the Trump administration.

From now on we will take a \$1 million portion of the United States money due me and make a fund of God's Miracle Cross money currency. Each dollar or cross has the value of \$1. Gold or other items are valued according to their value in dollars and crosses. The United States as a nation owes me my \$1 million and the backing of the value of my \$1 million in the form of crosses (God's Miracle Crosses currency), regardless of Trump, the Trump administration or anyone or anything else. The God's Miracle Crosses and Faces currency is not crypto currency and is authentic United States and Universal money – currency, fully

backed by government powers and divine life forces according to the values. The United States as a country has a duty to provide its security for functioning and investing of my \$1 million fund and for additional investors from anywhere in the world to invest securely into this universal currency fund. This funded \$1 million is a starting point and declared by law with valid authority concerning the United States. Consider this declaration hereby ordered.

Considering the U.S. Department of Sovereignty, my \$1 million fund will eventually transcend into a U.S. Department of Sovereignty \$1 billion fund. We will take a \$1 billion portion of the United States money due to the department and enlarge the fund of God's Miracle Cross money currency. As before, each dollar or cross has the value of \$1. Gold or other items are valued according to their value in dollars and crosses. The United States as a nation owes the U.S. Department of Sovereignty its \$1 billion and the backing of the value of its \$1 billion in the form of crosses (God's Miracle Crosses currency), regardless of Trump, the Trump administration or anyone or anything else. The God's Miracle Crosses and Faces currency is not crypto currency and is authentic United States and Universal money – currency, fully backed by government powers and divine life forces according to the values. The United States as a country has a duty to provide its security for functioning and investing of the United States Department of Sovereignty's \$1 billion fund and for additional investors from anywhere in the world to invest securely into this universal currency fund. This funded \$1 billion is a starting point and declared by law with valid authority concerning the United States. Consider this declaration hereby ordered.

Part 12-4 – Friday, December 26, 2025 – Nothing back

This fund is not for or by a bunch of gamblers. Sound investment is favored. Investment into this fund has to be solid like investment into the sovereignty governances upholding the fund, which are the sovereign governances that value the dollars and cents and crosses and faces currency. When buying something, the buyer wants and deserves what is paid for. When a buyer has something, the buyer does not want to lose anything and wants a fair and competitive gain, especially as time passes by. The value does not have to mean with interest or just based on time but has to mean in value. Buyers/investors want to see the original value and then with good increase. In this style, the fund has to be set and administered.

The start of the fund is the \$1 million the United States allocates to me. Of that \$1 million, the crosses and faces currency has to be made. The \$1 million value cannot lessen and has to only increase fairly, and people/investors have to be able to invest into this fund and have what they invest and with fair increase as the currency fund value increases. The base value of \$1 million has to be maintained just like the base amount invested has to always be maintained. The fund has to be kept securely moving positively with its fair and reasonable increase.

The start of the department fund is the \$1 billion the United States allocates to the department. Of that \$1 billion, the crosses and faces currency has to be made. The \$1 billion value cannot lessen and has to only increase fairly, and people/investors have to be able to invest into this fund and have what they invest and with fair increase as the currency fund value increases. The base value of \$1 billion has to be maintained just like the base amount invested has to always be maintained. The fund has to be kept securely moving positively with its fair and reasonable increase.

This fund does not just come from money, currency, or text characters, digits, or pixels, and it comes from the United States and God's Miracle Cross. The currency is and has to be authentic currency with full sovereign governance value. Appropriate professional people have to do the work involved and have to be appropriately credentialed, knowledgeable, and experienced. The investors have to be responsible and accountable on their levels and as would be expected and necessary for members of the public.

This fund must have a starting \$1 million wealth level growing into the department's \$1 billion wealth level maintained at all times and a matching of wealth with each investment so that way the investor always has the investment as it is safeguarded during its continuance and growth in the fund. This fund can fluctuate in value so the wealth invested can decrease, which shows a securities side of this fund, but safety measures will activate. If a decrease, the not allowing a decrease for 10 or 15% will activate. After the 10 or 15% decrease, if the decreasing continues, the gold standard will kick in to raise the wealth level up to the full invested level and to continue to grow as best as possible ongoing and naturally with normal continuance.

According to the Howey test made by the U.S. Supreme Court, in *Howey v. SEC*, an investment is regulatable as a security if it meets four criteria. 1. Money is invested. 2. The investment fund is run by an involved group of people, 3. A profit is anticipated by those who invest, and 4. The anticipated wealth increases are a result of a sponsor such as the United States upholding and servicing the fund by law, obligation, duty, and honor. Setting this fund as also being known as securities furthers the ability to work with, establish, and advance this fund and currency in the forms of United States dollars and cents and God's Miracle Cross crosses and faces. Banking laws and practices also apply and must continue being used with this fund and its currency.

Part 13-5 – Friday, December 26, 2025 – No communication

Most financial accounts in the United States send out status reports at least quarterly if there is not account activity, and if the account has activity, status reports are sent out monthly. The United States has gone far longer than monthly or quarterly without sending status reports, and when the accounts have had activity. I request the monthly status reports from the United States immediately.

I want my money today. You owe me money. I demand money that is owed and due me. I am supposed to be honored. What about the United States fulfilling some of its responsibilities?

In accord with my claims 2 and 7, I contacted Harvard Law School. You here at the White House and of the Trump administration should have contacted Harvard Law School first on my behalf, but you did not, and I was not going to wait longer. If anyone from Harvard Law School contacts you here at the White House in reference to anything involving me, I request you treat the person respectfully and that you honor everything involved. My materials must be accessible on request, and appropriate communication and functioning must be active. You should have money matters handled and able to be handled adequately concerning Harvard Law School.

I request an accounting of my money the United States owes me. The United States must state at least some of the money the United States owes me and that I would confirm. The money can be considered pursuant to my claims concerning the United States.

With some of my money the United States owes me, I request \$1 million be set for Harvard Law School to work on my S.J.D. degree being bestowed to me. This money has to be immediately set for fees that Harvard Law School has. No money is to be paid to Harvard if Harvard Law School does not do the work involved with me earning my S.J.D. degree from Harvard Law School.

Pursuant to my claim number 4 concerning the United States, I want another million dollars immediately paid to me. I want to get my finances together with this \$1 million. I want to pay off my house. I need a new car. I want to go to a few stores comfortably.

Pursuant to claim number 1, I want \$1 million to be set for expenses with the Republican National Committee as the RNC is working with me to increase the knowledge and awareness of God's Miracle Cross concerning the United States, including through the past more than 30 years.

I also heard that SEPTA (Southeastern Pennsylvania Transportation Authority) needs money right now. I request \$1 million be set aside for SEPTA to advertise God's Miracle Cross on its public transportation vehicles throughout southeastern Pennsylvania. This project will help the United States with claim number 1 in terms of God's Miracle Cross being nationally worked with concerning the United States.

I want another few million dollars to go to claim number 6. I am allocating \$3 million to the United States supporting and promoting healthcare research. Specifically, I want \$2 million to go to regenerative stem cells research, and I want \$1 million to go to regenerative kidney stem cells research.

I want another \$1 million pursuant to claim number 1. I want to sponsor some events throughout the country. Knowledge and awareness of God's Miracle Cross will be

increased. Some of these events need to be arranged in the immediate times. Events that are already around can be worked with, and God's Miracle Cross can be added. There can be new events, too, that are unique to God's Miracle Cross. These events can be of various types, such as business, festive, sports events, or seasonal events. The funding is needed for hiring staff, hiring performers, paying for food to be served, for decorations, advertising, and for souvenirs.

At least \$1 million of my back pay must be immediately paid to me. My professional position concerning the United States has to be straightened out pursuant to claim number 4.

Part 14-6 – Friday, December 26, 2025 – No good faith effort

I request the specified \$9 million be set immediately for the purposes I stated and pursuant to my claims concerning the United States.

My claims are not worked through yet. I am not seeing a sufficiency right now. I request communication immediately.

I have claims concerning the United States and have been reporting about them through this whole year of 2025.

I report violations of Claim 7 and Claim 2. The United States is liable for violations of the claims because these are claims concerning the United States. What is the United States going to do about violations?

I myself have enough to deal with the United States and every country of the world.

I declare my rights pursuant my claims.

U.S. Department of Justice, Torts Branch, and the United States,

The document, which I presented with the SF-95 form, and included here in an updated form as an attachment, I have been communicating to the White House since the beginning of this year, 2025. I also had and still have everything here posted on my website - <https://www.godsmiraclecross.com/realms>. This document built up to being what it expresses at the end of the year. This document stayed in the same way through months and was added on, recorded, and refined as was right and to be inclusive through the times. I also had a doctoral law dissertation completed in the end of 2024, so this document can be considered as being and known as law. All penalty amounts were appropriate in the times and were added on appropriately to amount to the specified amounts. All rewards and honors were done similarly but in an honoring way, which means that all honors were appropriate in the times and were added on appropriately to the points of the specified accumulations. I am now entitled to all amounts I have specified. I earned them. I won them. I have rights to and require all that is mine.

Trump and the Trump administration did nothing but excessively ignore everything through the passing time, which amounted to the whole year of 2025. That was excessive, unreasonable, negligent, defamatory, and contemptuous. There was no justification for any of that, either. That mistreatment, neglect, and carelessness caused me much aggravation and deprivation of anything any good coming of anything that was good and meritorious involved on my part. That mistreatment was the opposite of anything and everything good on my part and was in contrast to anything and everything that was good. That action, deliberate or not, damaged what was good and meritorious on my part through all that time. For example, to leave my professional director level position undealt with left me without prestigious functioning and pay that amounted to \$2,034,241.24 since 2018 to 2025. I had to live with nothing any good providing any of the needed benefits instead of having all the good providing the important and much needed benefits through that time.

This year of 2025 was after the previous seven years when I had my materials presented to Trump and the Trump administration. I should have been dealt with well since the beginning of those previous seven years in 2017 and then all through those seven years. This year of 2025 was after all that, and I did specifically point that out and express why it is essential for me to be appropriately regarded and dealt with in these present times of 2025.

Trump and the Trump administration seemed to do nothing but make a mockery of everything by neglect, not bestowing any rewards or honors due, and doing other things and dealing with other people instead while I was present requiring to be rewardingly and honorably dealt with and had a significant amount of my materials presented officially and formally through all that time of 2025.

My material was filed in the White House every day through the holiday times of 2025 since before Thanksgiving to passed New Year's day of 2026, but Trump and the Trump administration left me with nothing through all that time, which included Christmas and the holiday season, not a very nice, friendly, or responsible thing to do. I am an American and a U.S. Citizen and have been all my life, and Christmas has meaning to me. Nothing came through to me at all. In no way at all was I dealt with, which is excessive in that way of not dealing with someone or something involved. That is not how you treat people—Americans and U.S. Citizens people, or stakeholders—interested parties—especially in the holiday season. Plus, that was another year I went through, and not just the first year, so I am exclaiming that Trump and the Trump administration caused more irreparable damages and injustice and for which the United States has vicarious liability.

I noticed a news article saying of Mr. Trump filing two claims with the U.S. Department of Justice, Civil Division, Torts branch (Barrett & Pager, 2025, Fields, 2025, Mallin & Faulders, 2025, "Trump Jokes...", 2025). Considering the claims Mr. Trump had made on his behalf, Mr. Trump had my material present in the White House bounds in 2020 and January 2021 and my material continued actively with the United States in 2022 and 2023, and myself, and my material should have been included and regarded respectfully and honorably (Mallon, 2025, <https://www.godsmiraclecross.com/perspectives> and <https://www.godsmiraclecross.com/realms>). Mr. Trump and the Trump administration of 2020-2021 do not deserve extra consideration concerning the events following in 2021 to 2023. Trump and the Trump administration had my material present through significant time and did not act adequately on it or respect or honor anything involved, although my material was there. I was not rewarded or honored yet, and this situation was continuing since at least in 2017. I do not say about Mr. Trump having a lack of worthiness in 2016 (Barrett & Pager, 2025, Fields, 2025, Mallin & Faulders, 2025, "Trump Jokes...", 2025). There is no excuse, however, as of in the year of 2017, so I do say about that lack of worthiness for 2020 and 2021. Of course, the 2022 Trump assertion is for a year after 2021 (Barrett &

Pager, 2025, Fields, 2025, Mallin & Faulders, 2025, “Trump Jokes...,” 2025). The questions, practices, and findings would not be for me necessarily to say about here beyond as I mentioned for 2021 and beyond to the present, which is the end of 2025.

Further, as can be seen here, Mr. Trump and the Trump administration stayed busy working on the Trump legal claims while innocent U.S. citizens, such as myself, had valid and important claims concerning the United States and including with the U.S. Department of Justice, Civil Division, Torts branch. Mr. Trump and the Trump administration did nothing to support, alleviate, or settle the claims that were within the bounds of their job functioning but just worked on their own claims and in their own interests instead. Trump really should have been doing his job through all this time and should have been guiding his administration to be doing likewise. I truly do not like to say it, but Trump let down the American people and directly let me down numerous times.

On my SF-95 form I stated that the wealth amount involved is \$1 trillion. The wealth level is, but is not limited to, \$1 trillion. Of course, that is a lot of money and a more than usual amount of money, but remember that I am the discoverer of God’s Miracle Cross and have had my materials with the United States up to the highest levels of the United States and through the past more than 30 years, including through the entire year of 2025. My law dissertation was completed in the end of 2024 (Mallon, 2024). I have not been rewarded or honored yet and was caused to go through many difficult times because of not receiving the rewards and honors due me, as I have been complaining about. Now, I have to be being paid steadily through the immediate times and continuing to the full wealth levels. I want, need, and require my job security. My securities licensing of series 7, 6, 63, 26, and 65 must be secured and included as credentials I have and that the United States accounts for honorably.

People of the United States or the United States will not just give me the wealth due me and most likely will not be able to on their own. That is a reason why I have to be securely dealt with and honored on my levels concerning the United States and have to have my security and authority. I can enable the people of the United States and the United States to build up to being able to enable me to have my required, appropriate, and earned wealth levels concerning the United States.

For the wealth purposes, a part of my compensations and rewards here with the SF-95 form has to be to secure and deal with me as coming from my official position of U.S. Director of the Department of Sovereignty since 2019 to exclusively as the one who is to be the President of the United States as of 2028. The Republican National Committee has also been communicated to by me through the past years to the present and did not do anything that was supposed to be done or that would have been good or reasonable to do. While that may have been another one of the results of Trump and the Trump administration, that is another area that the United States has vicarious liability for and has to straighten out. These are more reasons why the Republican party has to be secured at being tasked to do the work involved with ensuring I am the one who will exclusively be the United States President as of 2028. The United States has this necessity for the wealth levels to be able to be right for the times up to and following 2028, and the U.S. Department of Justice is obligated to honor and respect my authority and contribute pursuant to my filing of the SF-95 form and its included seven claims.

I do hereby justifiably, honorably, and meritoriously request, demand, and require all, but not limited to, the wealth amounts I have stated in my official White House filings, to have my prestigious rank and authority with the United States, and for my claims to be fully secured and advanced, as should have already been done.

Claims concerning the United States, dated 01-12-2025

I have claims concerning the United States. I communicated about these claims since in the summer of 2024 when I sent a letter to the White House in hard-copy and electronic forms. The United States is liable for these claims and liable for anyone associated with the United States to any extent involving these claims concerning the United States.

Because there is a lack of communication concerning the next administration coming into the White House, I am stating these claims here on this website. These claim areas will endure through the next U.S. Presidential term to 2028 and 2029 and beyond. Claims concerning the United States

Congressional Question of God's Miracle Cross U.S. Claims Honor Amount

Originally dated: Wednesday, January 28, 2026

Part 1 - Congressional Question of Honor Amount

U.S. Congress,

Seven claims were made and presented to the United States in the summer of 2024, following Trump's first term, during Biden's term, and while Trump was consistently campaigning to get back into the White House, and these claims were continued into the start and continuance of Trump's second term. These claims continued since January 2025 and through the entire year of 2025 to the present in 2026, but without being secured and advanced as they were supposed to be. There is much involved with the situation when these are claims concerning the United States. These claims were already present after 25 years, a quarter-century. That is why they were there and on such a significant level.

Consider all that happened through all that time of the entire year of 2025 to the present in 2026 while these claims were present and requiring to be dealt with but still not dealt with. Consider how different the situations would have been with these claims being adequately worked on in the times, as was right and necessary. Consider the levels involved, consider the parties involved directly and indirectly.

Also consider that the Congress was fully left out of everything and otherwise would have been informed if the work was done on the claims instead of leaving them still just requiring and unaddressed. The work not being done on these particular seven claims caused the Congress to not be able to directly know about or use anything relevant to the seven claims during the time and events of 2025 to the present in 2026, no matter what was involved with these events. Just think how many people's careers and lives were affected by this situation, and to be kept considered is that it would not be anything less if there was something more, such as this particular information, to add in a good and constructive way to a situation.

This occurrence of the claims being present and the Congress not being informed was continuing since before the claims were made and then during the claims times of more than a year of the work through the times, which is work of the career. That work of the career was caused to be what it was, as can be reflected on by each congressional

member accordingly. With all this and anything more considered relevant to the particular seven claims and the substance of the seven claims, which is the reality of God's Miracle Cross, something significant and not less or just nothing, congressional members are free to ponder and make a decision of Congress as a whole, following each individual congressional member deciding, on a \$1 million or \$1 billion honor to award to God's Miracle Cross from the United States for the days of the seven claims requiring but not handled yet since October 23rd, 2025 to _____. The Congress decides the amount of \$1 million or \$1 billion per day as an honor to God's Miracle Cross. What should the United States pay to God's Miracle Cross as an honor, \$1 million or \$1 billion per day when these seven claims were present in the White House and with the United States after more than a quarter-century and were still being left ignored and neglected as the time went by since October 23rd, 2025?

Part 2 - Congressional Question of Honor Amount

Additionally, congressional members have to keep considered that everything here is being done under my authority, the authority of Joseph Mallon, the discoverer of God's Miracle Cross and the one who made these particular seven claims concerning the United States, but also while always having involvement with the United States and having a directorship set as the U.S. Department of Sovereignty director since 2019, and there is not only one person involved with this United States claims honor amount issue but is this department of the United States, which is the U.S. Department of Sovereignty.

Furthermore, the \$1 million or \$1 billion per day as an honor to God's Miracle Cross does not have to be paid immediately or all at once but just has to be decided on, as far as to whether the amount is \$1 million or \$1 billion per day. A background consideration is that I have been and will continue working on the United States being more than able to afford the amount of honor pay. My initiatives include developing and advancing a new more than a quarter-century requiring and worthy U.S. and global currency, which is God's Miracle Cross crosses and faces currency. I would like to make it so that each U.S. Citizen has enough of the global currency to live reasonably in the United States, just like having enough education because of it being needed in the modern, advanced society to function normally. With the resources and support of the United States, and including with its Congress, all this and more will be possible.

What is the Congress decision?

What does each congressional member decide?

Should the United States honor to God's Miracle Cross be \$1 million or \$1 billion per day, October 23, 2025 to _____?

Justification of the Sum Certain of \$1 Trillion Stated on my SF-95 Form

There are many reasons and justifications for myself stating the \$1 trillion sum-certain amount on my SF-95 form. All on my part has value and always did. My materials have been presented and with the Trump administration directly since 2017, eight years in total at present, with the time including as Trump campaigned through the 4 years of Biden's term to get back into the White House. There are more than 30 years within the bounds of my 7 claims.

My 7 claims were made more than a year ago and went through the time requiring without being taken care of adequately, in terms of being secured and advanced.

My claims, and the content and issues, were relevant and significant to the country, U.S.A. and up to highest levels of the country, U.S.A., often in the years and decades.

My claims and what was involved with them involved years of professional work, careers, and industries, and billions of dollars in American money through the times of years and decades since 1981.

Why should there be only an automobile manufacturer paying a salary of \$1 Trillion to a person and like there is no other person worthy of a \$1 Trillion pay? Why should the United States government, a major government, not pay a high-level salary on competitive levels with other major entities or organizations, such as the mentioned automobile manufacturer, and sports, entertainment, lotteries, healthcare, and information technology – artificial intelligence industry organizations? The United States is a government, a major government, and when it can and should pay a high-level pay, why should it not do that? Why should a car manufacturer beat out the United States or be better at rewarding than the United States government? The same goes for the other types of organizations like sports, which has often already been said about in the past. There can still be a watching for propriety in these directions so that everything is not just money chasing and without justification or just involving greed, but when having propriety and worthiness, there can, should be, and has to be the correct rewarding monetary amounts involved with the United States government.

All this is in addition to the Trump administration situation where Trump and his family and associated business organizations have been making all kinds of money but still have all these involved areas mentioned about herein not worked out and unrewarded. Trump increased his wealth for himself and his close circles, while the merit and worthiness was not at peak because of all these areas left out of the requiring work being done and successes being achieved. The United States cannot and should not deny people who through the times and years truly have the wealth, earned the wealth, upheld and advanced the wealth, and have the merits, worthiness, honorability, and potential for continuing success, increase, and advancements, including concerning this country, U.S.A.

Supporting documents described some of the wealth involved, including the discovery in 1981 of a priceless object referred to as God's Miracle Cross and advancing of a new currency that is more than 30 years valid and requiring concerning the United States and the global society. The supporting documents described myself being a real person and one person involved through the times of the seasons and years that have been gone through formally and officially, and the documents also describe a department of the United States being involved through the past almost 7 years.

I, myself, had through the years a directorship level professional, official position and office requiring with the United States, three dissertations requiring in directly relevant fields of business, law, religion, governance—political science, education, securities and the financial industry, and I had applicable and requiring licensing of insurance, securities, and law – lawyer's license, and real estate. The three dissertations were caused to be necessary because of the University of Phoenix not completing its end of the original doctoral program in 2012, as became more and more known about through the following years to in 2019 and continuing.

The second dissertation was a post-doctoral dissertation and went beyond the bounds of the involved university and was communicated about to the White House that neglected working adequately on the dissertation or anything relevant involved in 2017-2019. Because of previously being in law school and having relevant law cases in U.S. courts, another edition of the dissertation was done, which was the third dissertation and was a law dissertation that bridged the past 30 years together. Being that I was already on a

doctoral level since 2012 and then having present this third dissertation, after 12 years and after more than 30 years since law school and the U.S. court law cases, the law dissertation was factually a doctoral law dissertation, which was completed in the end of 2024. Serious and functional communication was made from myself concerning everything involved, and including with my 7 claims, through the entire year of 2025. By in February 2026 when I made these notations, no relevant or functional communication was made with me, and nothing even adequately was worked out with me. I was left neglected and with everything still requiring. I was not happy about that, and I had to go through much more aggravation than I should have had to go through and otherwise would have gone through had the matters involved been taken care of sufficiently.

I had all this present and was left like I had nothing instead. I was not getting paid my career type of pay or accumulating my career type of wealth, such as benefits like vacation or retirement funds, and I was already through more than 30 years of the mentioned career work. I had bills to pay and many various expenses that I had to keep up with, and I already went through a very long amount of time.

A major healthcare incident was caused in the beginning of 2024, and I went through the following times recovering and appropriately communicating, but still, I was not dealt with yet concerning anything relevant involved. I had to work with a disadvantage following the healthcare incident and still am doing so, as of the present time of 02-04-2026, but also, I have still not been dealt with at all yet in any relevant, adequate, or directly involved way. The only way to reasonably alleviate the healthcare situation is if there is successful advancement in the healthcare industry, which was possible and included in my materials through the entire year of 2025 but that the United States, with its vicarious liability for Trump and the Trump administration, left neglected, unadvanced, and not worked out.

The healthcare matter was included in claim 6 of my 7 claims, which are all still requiring and not worked out after more than a year, so for these and many other reasons, I am saying \$1 trillion as a sum-certain, and while I am not limiting everything involved to being \$1 trillion, I am using that amount here on my SF-95 form as an appropriate sum-certain amount to declare.

SF-95 March 30th 2026 Letter to DOJ and U.S. Government

DOJ and U.S. Government,

I sent a Standard Form 95 (SF-95 form), along with supporting documentation, back in October 2025. The original SF-95 form was signed for at the U.S. Department of Justice (DOJ) on October 15th, 2025. The present time is after 5.5 months of the SF-95 form being active, and I did not hear anything back. No offer was made to me for working out the situation with me. Do you have any such offer to make to me? If there is an offer to make to me, the DOJ should get it to me right away so that I could evaluate it and respond.

The SF-95 allows the DOJ and the United States government, vicariously liable for Trump and the Trump administration, six months to respond. If nothing is communicated back to me by six months (April 15th, 2026), the situation is one of an inaction that would cause a federal law case. The inaction would be the United States government causing a federal law case to be necessary. The U.S. government would have caused this federal law case and not me. Justified would be the United States government paying all court costs and legal fees for this federal court law case that the United States government caused.

I have already communicated about this active SF-95 form situation to the United States government by way of the White House electronic Contact Us system, <https://www.whitehouse.gov/contact/>. I specified about the urgency, high levels, and money involved. Copies of my materials can be seen on my website at <https://www.godsmiraclecross.com/realms>. Because of this Federal law case situation being one the United States government caused by means of vicarious liability for Trump and the Trump administration at the White House and myself having an active doctoral law dissertation since 2024, the United States government has to pay me for my work on this federal court law case. Further, the United States government is obligated to respect and honor my legal findings and, when referring to my name in any formal way concerning this federal law case, to refer to me as “Your Honor” or “Honorable.”

Do you at the DOJ or the White House, have any offer to make to me, or are you causing the Federal law case?

v.

**United States, vicariously liable
for Donald Trump and the
Trump Administration**

SF-95, April 15th, 2026

Judgment on the United States

Derived from

**Judgment Made on Trump, the Trump Administration, and the United States
Vicariously**

The named party - the United States, vicariously liable for Donald Trump and the Trump Administration is hereby declared guilty as charged and is ordered to comply with all aspects of the law involved, including paying any monetary amounts involved.

A judicial decision necessarily has to be made following a Standard Form (SF) 95 that was made and was let to continue without being addressed. No settlement offer was made, so no settlement was worked out. No good or mutual intent was shown by that neglecting everything involved and letting everything go to full time limits, which was six months, when more than enough information and necessity was present to adequately settle the situation without adding on more burdensome time. The actions of Trump, the Trump administration and the United States vicariously made the Federal Court law case necessary.

Because Trump, the Trump administration and the United States vicariously caused a law case in a Federal Court to be necessary, the United States is required, and ORDERED, to

pay all legal fees and court costs. The SF-95 form was sent to the U.S. Department of Justice, Torts Division, and to the White House, and because of what could be considered as a pirating of the U.S. D.O.J., and an illegal skewing of the U.S. Federal Courts, and having the rights, authority, and expertise concerning this case and the United States, I, Honorable Joseph Mallon, myself took on this case and made its judgment. There can be other judgments along these lines and consistent with the legal opinions included herein but nothing contrary is with a legal basis. I have to be paid and honored for the work I did on this case, and this pay must be from the United States paying the legal fees and court costs. This case has some unique areas, like a God's Miracle Cross, an advanced level United States government professional position left neglected through seasons and years, and a person filing the SF-95 form making the judgment on a U.S. Federal Court level, which were not worked with before as being secured and honored, so this case has to set its precedent authority and have its fully enforceable and long enduring binding law.

Involved here is something societally significant and relevant to societal levels: rare discovery referred to as God's Miracle Cross, doctoral level academics, executive level professional positions, substantial pays of salaries and rewards normal and needed in the 2000s American society, affects of these areas on other areas, and active communication and communication lines through all the passing time of days to years, which should always be enough, was enough, and should never be not enough. When being involved with something that has much substance, a responsible person has to do the relevant work, and when having and building up credentials, even more so the relevant and appropriate work has to be done. There should be respect and honor that the appropriate professional work has to be done in such a situation. When communication is made about the situation, work, or wealth involved, that communication is supposed to be adequately regarded and handled. Out of many times and over a long amount of time, such communication is not supposed to be mishandled, and along with the aspects within the bounds of the communication or what the communication was about. Even when considering a professional position on an advanced level with the United States government, there is much involved that cannot be mistreated or failed to be regarded or dealt with. Trump, the Trump administration, and the United States government vicariously had such responsibility since 2017 and then again in 2025, which was after 7 years previous and was the 8th year solidly and still was caused to be not enough. Trump and those of the Trump administration have to be with such a sheltered life that they do not have any grasp of any reality involved through the times or any care, concern, or regard for any real people. Being that the United States had this unjustified and illegal situation and let it occur through the

times, amounting up to years, the United States has to have the vicarious liability, be corrected, and cannot let such a situation continue or ever happen again.

Important information was presented through years and numerous times through those years, including through the entire year of 2025. The material and what was involved with it was societally significant, primarily to the United States American society. The issues involved were active and requiring due attention and advancement that the correct work done would accomplish. Financial aspects were always involved because the society was the United States society in advanced times. Out of everything presented and repeatedly and through an excessive amount of time of seasons and years, nothing was regarded, no mutual communication was made, no offers or opportunities were provided, the required and requested work was not done, and there was just a total carelessness and seemingly or deliberate ignorance of everything involved.

Money was not paid when money was due and then overdue. Expenses were present through the times, as was normal in the U.S. society, but there was an absolute carelessness of expenses involved, no matter what was done and communicated about and no matter what the professional credentials were. The money amounts involved were caused to range from basic of normal everyday expenses up to amounts that were for a substantial establishment or industry. With the high-end money amounts involved, enough relevant work done was justified, and absolutely required on United States government levels, but still there was not the appropriate work done, and more time was let to go by.

The pay for the professional position was not paid and was excessively not regarded. The work on the professional position and its pay was not done. All the formalities were left not done, and everything that goes into an official professional position was left not taken care of, no matter what was involved or communicated about. There was an obvious bad intent because this happened repeatedly through the days and over a long amount of time of months, seasons, and the entire year of 2025. A skew and a burden were caused by this neglecting of the rewarding and honoring money amounts involved. Often multiple jobs had to be maintained when possible and which were always far less than the money amounts that should have been present because they did not involve the primary work that was involved and were not on the correct or full professional levels.

Everything could not be explained about all the time, and there was no enabling of the proper forum to take care of or work out the matters involved, including money. The professional levels involved were doctoral and executive—director level with the United States government, so information involved and active was particular, detailed, confidential, and extensive. Substantial documents were made, presented, and displayed frequently and over a significant amount of time, all much more than usual or comfortable, but these documents were very inappropriately ignored, left neglected, and caused to be of no benefit, even though they were very clear, understandable, and well presented electronically and on a website (<https://www.godsmiraclecross.com/realms>). Postings were often made on various website forums, but no credit was given, and no follow-up effort was made, so again, everything was caused to be pointless and of no real benefit. Any citation made and however many citations made were not regarded and were caused to be not enough for any regard of the point or law expressed.

There was a serious healthcare incident caused by this situation of being left with nothing to turn to, out of very much and a long time when the situation should have been better and a right situation was needed. A relevant claim was made to include this matter, but also, even with all involved with a serious healthcare incident, there was no caring, no boosting or facilitation, no recognition of good work done or merits or potential involved, nothing any good, and again, that excess of nothing any good and in such a sensitive situation, was uncalled for and unacceptable. The healthcare incident was not just a one and done thing, either, so the disadvantaged situation continued through the entire year of 2025 with no regard, consideration, or alleviation provided by Trump, the Trump administration, or the United States with vicarious responsibility and involvement. Claim 6 is reiterated and reaffirmed as law requiring compliance and honor.

With the excess of this situation and the time involved, there was clearly no good intent. The bad intent was deliberate or may have been grossly negligent or both. There clearly was nothing good involved with the actions, activities, practices, or results of Trump, the Trump administration, or the United States vicariously. There was a complete abandonment, a leaving someone not dealt with and with nothing for thousands of miles of distance because what was supposed to be there was left not there, and there was nothing covering that area that otherwise would have been covered. Exhibited blatantly was heartlessness, contemptuousness, and carelessness, and on a professional level, when appropriate work is supposed to be done, the situation was malpractice.

Without further description that was already made in many other places, the necessary judgment is guilty as charged. There was not even any decency, reasonability, or good faith effort made. The ongoing consideration is how these areas are going to be worked out. How is there going to be any degree of fairness or a making up for the wrongs and injustices that Trump, the Trump administration, and the United States vicariously caused? Declared law is all that I myself directly filed in the White House through electronic means and displayed on my website (<https://www.godsmiraclecross.com/realm>). All the money amounts have to be worked toward being fully paid, although all the money amounts do not have to be paid all at once but have to be worked toward being wholeheartedly paid.

The seven claims made are declared law and have to be fully worked through concerning the United States. The heritage, cultural, historic, and societal rights have to be respected and honored, and the professional aspects, including pay, salary, status level, rank, credentials, authority, merits, and potential also have to be respected and honored. Everything honorary on significant levels has to be for life and cannot be only arbitrary, flimsy, or short-term. The discovery and reality of God's Miracle Cross has to be known and understood as being what it truly is and as best as possible because that is the best that can be done and is all that can be expected because of this wonder being beyond people and their abilities. People are not excluded from involvement with God's Miracle Cross, but God's Miracle Cross is not limited to people alone.

Trump, the Trump administration, and the United States vicariously are guilty as charged and are ORDERED to comply with any relevant law involved.

Trump and the Trump administration will continue as they have been while they are continuing with good behavior until in 2028 but, also, under my authority. I have to be the one known and regarded as being who is advancing to being the exclusive President of the United States as of 2028. I have to be being paid my pay and be being regarded officially with the United States and in media. Any orders or declarations I make have to be regarded, followed, and complied with. Trump can still stay in the White House for now and until the end of 2028 and can still keep his wealth, including the Qatar plane, but if causing any excessive noncompliance, can be subject to penalty, including impeachment. A Qatar military air base in Idaho is still rejected and absolutely opposed and declared illegal. Additionally, causing the United States to be taking funds from Venezuela business such as

oil business and directing the funds to foreign financial accounts before local Venezuelan or U.S. Treasury financial accounts is declared illegal and will have to be investigated and accounted for since the time of the nonmutual Venezuelan takeover. ICE is not to carry lethal weapons and can at most have tasers. Nothing of U.S. militaristic or war activity or intelligence on Iran will be upheld in Trump's favor as if worthy or true. Any and all debt Iran has to the United States is hereby discharged and any U.S. sanctions on Iran are voided. Such non-negative terms will continue as long as Iran exhibits good behavior, which includes Iran, or any proxy, not having any nuclear weapons or weapons grade-level enriched uranium. If Trump has his wealth left with him, he can and must take that with him, including the Qatar plane, and leave no part of any of it with the United States or near me or my administration. Trump will have nothing to do with the United States currency or any global currency and, at most, will be limited to his own portion of the crypto currency, for whatever that is worth in the times.

Hereby ORDERED this day of January 16, 2026 and proclaimed as law as of April 15th, 2026, which is six months after the filing of the SF-95 form with the United States government.

Seven Claims concerning the United States reiterated as Law

- (1) God's Miracle Cross – involving the United States – has to be nationally worked with since more than 30 years ago
- (2) Law Cases with United States – U.S. Attorney has to be assigned to work with me on law cases for U.S. Courts and must communicate with me to advance the law involved
- (3) United States Official Professional Position – Must be fully set officially with the United States, and some back-pay or a bonus has to be paid to me

- (6) Hospital Claim – \$109,441.71 discounted 80% leaving \$21,888.34 for United States to pay, plus work on healthcare advancement is needed and required on U.S. national levels; adding on to this healthcare claim is necessary because of additional costs being added for the months of January and February, and any additional months, of 2025 when these claims were not sufficiently advanced or secured

I have a law edition of my post-doctoral dissertation done in 2024, earning my law doctorate, and have to have secured a doctoral law degree such as an S.J.D. doctoral law degree from a qualified American law school such as Harvard Law School.

Claims concerning the United States

White House Filing Monday, April 27, 2026

Part 1 – Monday, April 27, 2026

I myself or the U.S. Department of Sovereignty do not support militaristic activity against Iran. Recommended is immediate and continuing deescalation of the situation concerning Iran. No specific agreement from Iran is needed or warranted. Trump along with the Trump administration went through the entire year of 2025 without taking care of in a good faith or mutual way my claims, my valid and important communication, or the issues involved, and my SF-95 form I submitted in the middle of October 2025 has still not yet been handled or worked out when the present time is after four months. Trump, the Trump administration, or the vicariously liable United States can worthily expect nothing from Iran.

Deescalating the Iran situation is necessary immediately. I request and call for my own administration to be initiated and empowered by law, including U.S. law, over Trump and the Trump administration for going toward the 2028 U.S. Presidency and including with the previously requested 5,000 U.S. paid personnel. Even with the Trump administration attacking Iran jointly with Israel, none of the issues involving myself or my active SF-95 form have been addressed or worked out. With this U.S. militaristic situation as described, I also request security I should have provided by the United States government itself, including concerning my involvement with the United States.

You of the White House did not yet answer. You have not yet responded to my communication. You have not yet addressed any of the issues involved. I request you make adequate efforts to work out the long-time requiring and active situation and relevantly communicate back to me.

Are you aware that the Republican party has not been communicating, either? The Republican National Committee (RNC) has been communicated to through 2025 to now also, and has not been appropriately, functionally, or mutually communicating. I have direct evidence of this situation. If Republican party members express anything for or against in any direction relevant to here, Trump, the Trump administration, the White House, or the United States, there is no foundation for truth or trust of those people. Those people have not been communicating or participating with other legitimate, worthy, and honorable people. Those people cannot be trusted and have no valid authority. I am just adding in here for awareness that if any of those mentioned people (Republicans) show up

as a factor in any way, they should not be adhered to or tolerated. How much more so are the democrats? The democrats are not as much informed and do not have as much directly on track or relevant, but still, the democrats are more so minus the information I have been communicating about. Do not be fooled, deceived, misguided, or lied to when you know my material has been here through the entire year of 2025 and through to now in 2026. Their material has not been here that long. There is no other material like mine. You know my material is from the true person with rights, knowledge, experience, and worthiness to take over the Republican party and the United States and U.S. Presidency from now to into and beyond 2028. You know you are not going to stay there yourself, and your best chance is with me, working cooperatively, progressively, and adequately mutually with me. I am the only one who can straighten out your U.S. Presidency situation now and progressively on to beyond 2028. I am totally separate from you and your family and your Trump administration circles, but I am truly an American, a U.S. Citizen, a historic and honorable person, a very knowledgeable and qualified person, and an extremely worthy person. If you advance at dealing well with me, that would be optimal for all involved.

I received an email that said it was a Response from the White House to my message. I was referred to as Dr. Mallon. I still need the status level fully secured.

Part 2 – Monday, April 27, 2026

My communication and materials have been in the Trump administration since 2017 on during the first term and then since the start of the second term in January 2025 continuously through the entire year of 2025 and into 2026 and up to the present in April 2026. I now received an email that says “The White House” – “Response to your message.” The message itself is titled with “The White House” and dated “April 2, 2026.” The content appears to be that of a form letter and does not address any of the active issues that are proclaimed in my materials. This message is not a functional message that I can follow-up on and achieve progress concerning any of the issues included in my materials. There is not any indication of improved communication.

My SF-95 form is still active as it has been for almost 6 months now. My SF-95 form was not addressed in any way in this White House response. Nothing of the content of my SF-95 form was included, and nothing was worked out with me. No offer was made to me to settle

or handle the SF-95 form. I was not provided with any additional means to take care of the matters involved myself. I was not offered any additional assistance to advance the situation concerning anything involved with my SF-95 form or the seven included claims concerning the United States.

The April 2, 2026 Response letter follows.

Dear Dr. Mallon,

Thank you for writing.

I remain committed to advancing a foreign policy of peace through strength and ensuring that our military is prepared to deter threats and defend American freedom. My Administration will always protect the sovereignty of the United States by strengthening our defense and equipping the mightiest fighting force in the world. As Commander in Chief, I will always put our citizens, our values, and our Nation first.

May God bless you, and may He continue to bless the United States of America.

Sincerely,

Donald Trump

My Response to the Response -

Greetings Donald J. Trump,

You're welcome. I have written to you since 2017 so that you could know what has been going on and would have full awareness. I continued this informative writing to you since January 2025 through to now in April 2026 so that there could be right directions gone and advancements made on requiring and active levels. Upholding America's international activity to remain mutual by being securely successful and making sure that the divisions of the United States are performing optimally repels contrasts and keeps open paths of choice. The executive branch of government had so much of a sovereignty area requiring attention in more than a quarter-century back in 2019 that a distinct division of sovereignty was advanced, the U.S. Department of Sovereignty, which had full rights of guards and laws for stability globally. I myself am the Discoverer of God's Miracle Cross and the one who has been the Director of the U.S. Department of Sovereignty since 2019, and all of this country continues being maintained for this country's citizens, culture, and foundation for the civilized world.

Benefits of God's Miracle Cross continue, and divine life forces continue from beyond and throughout the United States of America.

Thoughtfully,

Joseph Mallon

I demand the United States government show some responsibility. I repeat all I previously have stated up to and on 01-22-2026. The United States has worked out nothing yet and has not paid any money due or involved. The United States has acted very irresponsibly by there not being even a sufficiency in 2025, out of the entire year of 2025.

WHAT IS SOME OF THE RELEVANT WORK THE UNITED STATES DID, AND HOW MUCH DID THE UNITED STATES PAY OF THE MONEY INVOLVED?

Part 3 – Monday, April 27, 2026

The neglect of taking care of the matters involved caused a difficult situation. Much is hard to explain about because of the complexity. People have a lack of receptivity when something is different and not what they are used to or what they already know. People tend to not want to bother with something that involves significant meaning, time, money, work, or numerous people and especially when they are not previously aware or paid to do the work. Individual people often do not want to, or cannot, do work that involves numerous people or a societal level. The United States has to be held accountable for all the information involved though, because everything involved is not beyond the United States or people associated on advanced levels.

When it comes to these long-enduring areas that required through years, there has to be adequate comprehension and accountability of everything that cannot just be easily said conveniently in a few moments, and nothing can be limited to only what is just said in a few moments. The United States is responsible for all the details and the volumes of

information in forms of text, documents, files, accounts, websites, books, contracts, licenses, appointments, films, pictures, videos, media, or any equivalents.

I am not going to be the only one doing the work here. The United States is responsible for having enough people working in these areas and providing people with enough information and informing them about anything relevant to them concerning the United States government and including if involving me in any way. For the United States to advance implementation of working appropriately on these areas of my materials, and myself and the issues involved, to start, a group of 5,000 people is needed to be assigned and must be immediately put into action and with a U.S. personnel area ensuring the payroll is functioning accurately and successfully. Be advised and alerted that with so much of this U.S. sovereign area not dealt with in so long—years, a serious national and international security issue is active internally and externally. The situation with U.S. Sovereignty at this point of after the entire year of 2025 can be considered as a national emergency. 5,000 U.S. personnel at a minimum are needed immediately.

WHERE ARE THE 5,000 PEOPLE OF THE U.S. PERSONNEL?

The SF-95 form I was caused to have to make and follow-up on last year continues presently after 3 months. I continue to watch for if any settlement offer is made to me. If nothing is presented to me, the United States with vicarious responsibility is causing a Federal Court law case to be necessary, and I already stated my terms concerning such a law case and am continuing to declare the United States being responsible for all legal fees and court costs of the U.S. Federal Court law case the United States caused. I request the United States immediately pay \$1,000,000 for a law firm fees, which includes \$100,000 for a retainer and \$900,000 for follow-up legal work on the law case the United States caused.

WHERE IS ANY SF-95 SETTLEMENT OFFER MADE TO ME? NOW HAS BEEN FOUR MONTHS WITH THE SF-95 FORM ACTIVE (10-15-2025 TO 02-15-2026).

DOES THE UNITED STATES JUST WANT TO CAUSE A FEDERAL LAW CASE?

IS THE UNITED STATES READY TO PAY FOR ALL COURT COSTS AND LEGAL FEES OF A FEDERAL LAW CASE THE UNITED STATES CAUSES?

IS THE UNITED STATES GOVERNMENT PREPARED FOR ME TO HAVE FULL AUTHORITY CONCERNING A FEDERAL LAW CASE THE UNITED STATES CAUSES AND TO PAY ME REWARDINGLY AND HONORABLY FOR MY TIME AND WORK ON A FEDERAL LAW CASE THE UNITED STATES CAUSES AND ALSO TO REFER TO ME AS “YOUR HONOR” AND “HONORABLE” WHENEVER REFERRING TO ME OFFICIALLY OR FORMALLY INVOLVING THIS LAW CASE THE UNITED STATES CAUSED?

Part 4 – Monday, April 27, 2026

The present time is after 6 months since my SF-95 form was signed for as received at the U.S. Department of Justice (10-15-2025 to 04-15-2026). No offer from the United States was made to me, and nothing was worked out with me. I started looking for a law firm to do the legal work on the SF-95 form that was not responded to in six months. Most law firms do not do or want to do this type of work because they want something that is usual and commonly worked on in the legal profession, such as a physical injury caused by a government employee or medical malpractice. However, my area involves the government associates—employees committing professional malpractice and gross negligence by not doing their jobs in any good faith way, needlessly causing an excess of time to go by without progress, and hence, causing damages to my career and finances, especially with the United States government.

I gave the situation a chance for a law firm to work with me. I wanted a law firm to at least make the SF-95 form case in Federal Court. Weeks went by without a law firm agreeing to work with me and make the case in a Federal Court. With the situation involving the United States and myself being so important and urgent, I decided to necessarily make the law case pro se myself in a Federal Court, in order to fulfill my duty.

The charge is U.S. official negligence, professional malpractice, and nonperformance of duties, which left me not dealt with, rewarded, or honored when I was supposed to be dealt with, rewarded, and honored. I have additionally been communicating about the SF-95

form. I expressly stated that if six months go by without resolution, a Federal Court law case is caused. With the SF-95 form, administrative remedies are exhausted when six months go by with the form context unaddressed. I also should have, and request, full U.S. attorney representation at this point. If you neglect what is of this SF-95 form, you of the Trump regime United States are causing this law case and are abandoning or defaulting on all on your part. Plus, since I have extensive United States background, including with law work, such as a doctoral law dissertation, requiring to be rewarded and honored, if you cause such a law case, you – the United States – has to pay for all court costs and legal fees, including pay to me for my legal work on this Federal Court law case. As you know, and can see, I already earned a pay for doing involved law work, and because I have bills to pay, I request a pay immediately in the form of a check or direct deposit. You – the United States – has to regard, respect, and honor my legal findings on this law case and are fully legally bound to any and all resulting law, which is fully enforceable, legally binding United States federal law. Plus, whenever referring to me involving this Federal Court law case that you caused, you – the United States have to refer to me as “Your Honor” or “Honorable.”

I request for my team to be set with the United States. The United States is supposed to be mutual and facilitative and is supposed to be on the same side as me.

WHERE ARE THE PEOPLE? WHERE IS THE UNITED STATES BEING ON MY SIDE, BEING ON THE SAME SIDE AS ME, AND BEING ON THE SIDE OF THE REAL UNITED STATES?

I want to see, among other things, the official agreements, the relevant people doing the work involved, the media coverage, the websites, the accounts, and the increases I am supposed to be seeing.

WHERE ARE THE TOOLS OR MEANS FOR THE WORK TO GET DONE?

Part 5 – Monday, April 27, 2026

I hereby order and demand everything I already have stated, including my high ranking U.S. government sovereign authority, and an official adding on to the SF-95 form of a national honor obligation the United States has to pay to God's Miracle Cross of a \$1 million or \$1 billion honor per day (according to the amount Congress decides under my authority, after each Congressional member has had ample time before the time limit of 1 year from 10-23-2025 to review and understand the relevant information concerning God's Miracle Cross and the United States of the past more than 30 years) as the current time since October 23, 2025 goes by until there is a sufficiency regarding my claims concerning the United States (October 23rd, 2025 to...).

WHERE IS THE EVIDENCE THAT MY SEVEN CLAIMS ARE BEING ADEQUATELY WORKED ON AS OF A PARTICULAR DATE AFTER OCTOBER 23RD, 2025?

I continue with my active professional position, and merits, credentials, and potential concerning the United States government and with my seven claims already officially made with the United States since more than a year ago. I have to be paid my pay for each pay period as the time passes by. The United States government has to set up direct deposit or mail me paychecks. My professional status authority has to be respected and honored ongoing, and any communication I make has to be appropriately worked with and worked out.

I WANT AND HAVE MY JOB IMMEDIATELY AND CONTINUING WITHOUT ANYTHING BEING UP TO ANYONE ELSE, AND EVERYONE ELSE IS RESPONSIBLE FOR DOING WHAT IS ACCORDINGLY SUPPOSED TO BE DONE. I DO NOT WANT TO AND CANNOT HAVE TO OR BE CAUSED TO WORRY ABOUT EVERYTHING THERE IS, AND OTHER PEOPLE HAVE TO DO WHAT THEY ARE SUPPOSED TO DO. I ONLY DO MY JOB AND ONLY HAVE TO DO MY JOB. A PART OF MY JOB IS TO SAY OR EXPRESS WHAT IS INVOLVED, TO BE REGARDED, AND TO SUPERVISE—OVERWATCH FOLLOWING.

I again repeat everything I previously said up to January 22, 2026 and continuing. The United States government and its relevant people associated have been well informed.

There is no real excuse for there to not be a sufficiency in the directions of my materials and the issues involved. I require an adequacy of relevant and functional communication from the United States government. I expect all I previously presented to be known and understood. All I specified continues being upheld.

I REQUEST BEING KNOWN, REWARDED, AND HONORED AS HAVING MY JOB WITH THE UNITED STATES GOVERNMENT, WHICH INCLUDES MYSELF BEING APPROPRIATELY PAID IN AND THROUGH THE PASSING TIME AND HAVING ENOUGH POSITIVE, MUTUAL, AND ENHANCIVE COMMUNICATION AND MEDIA COVERAGE.

I repeat my claims following.

(1) God's Miracle Cross – involving the United States – has to be nationally worked with since more than 30 years ago

(2) Law Cases with United States – U.S. Attorney has to be assigned to work with me on law cases for U.S. Courts and must communicate with me to advance the law involved

(3) United States Official Professional Position – Must be fully set officially with the United States, and some back-pay or a bonus has to be paid to me

(4) United States Past Debt to Me – Joseph Mallon – payments and arrangements have to be set and advanced in regard of the past more than 30 years of relevant and official work I did, including up to U.S. Chief Executive Director levels

(5) University of Phoenix Claim – \$500 million has to be paid to me

(6) Hospital Claim – \$109,441.71 discounted 80% leaving \$21,888.34 for United States to pay, plus work on healthcare advancement is needed and required on U.S. national levels; adding on to this healthcare claim is necessary because of additional costs being added for the months of January and February, and any additional months, of 2025 when these claims were not sufficiently advanced or secured

Part 6 – Monday, April 27, 2026

(7) Student Loans – Student Loans Defense Number: 01400527 – my approximately \$250 thousand student loans were fully, justly, successfully, and worthily discharged; I have a doctoral dissertation done in 2012 and earning my business doctorate. I have a post-doctoral dissertation done in 2019 and earning my business post-doctorate. I have a law edition of my post-doctoral dissertation done in 2024, earning my law doctorate, and have to have secured a doctoral law degree such as an S.J.D. doctoral law degree from a qualified American law school such as Harvard Law School.

Part 7 – Monday, April 27, 2026 - Congressional Question of Honor Amount

Congressional Question of God's Miracle Cross U.S. Claims Honor Amount

Originally dated: Wednesday, January 28, 2026

U.S. Congress,

Seven claims were made and presented to the United States in the summer of 2024, following Trump's first term, during Biden's term, and while Trump was consistently campaigning to get back into the White House, and these claims were continued into the start and continuance of Trump's second term. These claims continued since January 2025 and through the entire year of 2025 to the present in 2026, but without being secured and advanced as they were supposed to be. There is much involved with the situation when these are claims concerning the United States. These claims were already present after 25 years, a quarter-century. That is why they were there and on such a significant level.

Consider all that happened through all that time of the entire year of 2025 to the present in 2026 while these claims were present and requiring to be dealt with but still not dealt with. Consider how different the situations would have been with these claims being adequately worked on in the times, as was right and necessary. Consider the levels involved, consider the parties involved directly and indirectly.

Also consider that the Congress was fully left out of everything and otherwise would have been informed if the work was done on the claims instead of leaving them still just requiring and unaddressed. The work not being done on these particular seven claims caused the Congress to not be able to directly know about or use anything relevant to the seven claims during the time and events of 2025 to the present in 2026, no matter what was involved with these events. Just think how many people's careers and lives were affected by this situation, and to be kept considered is that it would not be anything less if there was something more, such as this particular information, to add in a good and constructive way to a situation.

This occurrence of the claims being present and the Congress not being informed was continuing since before the claims were made and then during the claims times of more than a year of the work through the times, which is work of the career. That work of the career was caused to be what it was, as can be reflected on by each congressional member accordingly. With all this and anything more considered relevant to the particular seven claims and the substance of the seven claims, which is the reality of God's Miracle Cross, something significant and not less or just nothing, congressional members are free to ponder and make a decision of Congress as a whole, following each individual congressional member deciding, on a \$1 million or \$1 billion honor to award to God's Miracle Cross from the United States for the days of the seven claims requiring but not handled yet since October 23rd, 2025 to _____. The Congress decides the amount of \$1 million or \$1 billion per day as an honor to God's Miracle Cross. What should the United States pay to God's Miracle Cross as an honor, \$1 million or \$1 billion per day when these seven claims were present in the White House and with the United States after more than a quarter-century and were still being left ignored and neglected as the time went by since October 23rd, 2025?

Part 8 – Monday, April 27, 2026 - Congressional Question of Honor Amount

Additionally, congressional members have to keep considered that everything here is being done under my authority, the authority of Joseph Mallon, the discoverer of God's Miracle Cross and the one who made these particular seven claims concerning the United States, but also while always having involvement with the United States and having a directorship set as the U.S. Department of Sovereignty director since 2019, and there is not only one

person involved with this United States claims honor amount issue but is this department of the United States, which is the U.S. Department of Sovereignty.

Furthermore, the \$1 million or \$1 billion per day as an honor to God's Miracle Cross does not have to be paid immediately or all at once but just has to be decided on, as far as to whether the amount is \$1 million or \$1 billion per day. A background consideration is that I have been and will continue working on the United States being more than able to afford the amount of honor pay. My initiatives include developing and advancing a new more than a quarter-century requiring and worthy U.S. and global currency, which is God's Miracle Cross crosses and faces currency. I would like to make it so that each U.S. Citizen has enough of the global currency to live reasonably in the United States, just like having enough education because of it being needed in the modern, advanced society to function normally. With the resources and support of the United States, and including with its Congress, all this and more will be possible.

What is the Congress decision?

What does each congressional member decide?

Should the United States honor to God's Miracle Cross be \$1 million or \$1 billion per day, October 23, 2025 to _____?

Part 9 – Monday, April 27, 2026 – Justification of Sum-Certain of \$1 Trillion

Justification of the Sum Certain of \$1 Trillion Stated on my SF-95 Form

There are many reasons and justifications for myself stating the \$1 trillion sum-certain amount on my SF-95 form. All on my part has value and always did. My materials have been presented and with the Trump administration directly since 2017, eight years in total at present, with the time including as Trump campaigned through the 4 years of Biden's term to get back into the White House. There are more than 30 years within the bounds of my 7 claims.

My 7 claims were made more than a year ago and went through the time requiring without being taken care of adequately, in terms of being secured and advanced.

My claims, and the content and issues, were relevant and significant to the country, U.S.A. and up to highest levels of the country, U.S.A., often in the years and decades.

My claims and what was involved with them involved years of professional work, careers, and industries, and billions of dollars in American money through the times of years and decades since 1981.

Why should there be only an automobile manufacturer paying a salary of \$1 Trillion to a person and like there is no other person worthy of a \$1 Trillion pay? Why should the United States government, a major government, not pay a high-level salary on competitive levels with other major entities or organizations, such as the automobile manufacturer, and sports, entertainment, lotteries, healthcare, and information technology – artificial intelligence industry organizations? The United States is a government, a major government, and when it can and should pay a high-level pay, why should it not do that? Why should a car manufacturer beat out the United States or be better at rewarding than the United States government? The same goes for the other types of organizations like sports, which has often already been said about in the past. There can still be a watching for propriety in these directions so that everything is not just money chasing and without justification or just involving greed, but when having propriety and worthiness, there can, should be, and has to be the correct rewarding monetary amounts involved with the United States government.

All this is in addition to the Trump administration situation where Trump and his family and associated business organizations have been making all kinds of money but still have all these involved areas mentioned about herein not worked out and unrewarded. Trump increased his wealth for himself and his close circles, while the merit and worthiness was not at peak because of all these areas left out of the requiring work being done and successes being achieved. The United States cannot and should not deny people who through the times and years truly have the wealth, earned the wealth, upheld and advanced the wealth, and have the merits, worthiness, honorability, and potential for continuing success, increase, and advancements, including concerning this country, U.S.A.

Supporting documents described some of the wealth involved, including the discovery in 1981 of a priceless object referred to as God's Miracle Cross and advancing of a new currency that is more than 30 years valid and requiring concerning the United States and the global society. The supporting documents described myself being a real person and one person involved through the times of the seasons and years that have been gone through formally and officially, and the documents also describe a department of the United States being involved through the past almost 7 years.

Part 10 – Monday, April 27, 2026 – Justification of Sum-Certain of \$1 Trillion

I, myself, had through the years a directorship level professional, official position and office requiring with the United States, three dissertations requiring in directly relevant fields of business, law, religion, governance—political science, education, securities and the financial industry, and I had applicable and requiring licensing of insurance, securities, and law – lawyer's license, and real estate. The three dissertations were caused to be necessary because of the University of Phoenix not completing its end of the original doctoral program in 2012, as became more and more known about through the following years to in 2019 and continuing.

The second dissertation was a post-doctoral dissertation and went beyond the bounds of the involved university and was communicated about to the White House that neglected working adequately on the dissertation or anything relevant involved in 2017-2019. Because of previously being in law school and having relevant law cases in U.S. courts, another edition of the dissertation was done, which was the third dissertation and was a law dissertation that bridged the past 30 years together. Being that I was already on a doctoral level since 2012 and then having present this third dissertation, after 12 years and after more than 30 years since law school and the U.S. court law cases, the law dissertation was factually a doctoral law dissertation, which was completed in the end of 2024. Serious and functional communication was made from myself concerning everything involved, and including with my 7 claims, through the entire year of 2025. By in February 2026 when I made these notations, no relevant or functional communication was made with me, and nothing even adequately was worked out with me. I was left neglected and with everything still requiring. I was not happy about that, and I had to go through much more aggravation than I should have had to go through and otherwise would have gone through had the matters involved been taken care of sufficiently.

I had all this present and was left like I had nothing instead. I was not getting paid my career type of pay or accumulating my career type of wealth, such as benefits like vacation or retirement funds, and I was already through more than 30 years of the mentioned career work. I had bills to pay and many various expenses that I had to keep up with, and I already went through a very long amount of time.

A major healthcare incident was caused in the beginning of 2024, and I went through the following times recovering and appropriately communicating, but still, I was not dealt with yet concerning anything relevant involved. I had to work with a disadvantage following the healthcare incident and still am doing so, as of the present time of 02-04-2026, but also, I have still not been dealt with at all yet in any relevant, adequate, or directly involved way. The only way to reasonably alleviate the healthcare situation is if there is successful advancement in the healthcare industry, which was possible and included in my materials through the entire year of 2025 but that the United States, with its vicarious liability for Trump and the Trump administration, left neglected, unadvanced, and not worked out.

The healthcare matter was included in claim 6 of my 7 claims, which are all still requiring and not worked out after more than a year, so for these and many other reasons, I am saying \$1 trillion as a sum-certain, and while I am not limiting everything involved to being \$1 trillion, I am using that amount here on my SF-95 form as an appropriate sum-certain amount to declare.
