

Harvard Law School, Graduate Division,

I just wanted to provide a little additional information to here for in case anyone was interested. My SF-95 form went passed the six-month point without the United States responding or working anything out with me, so a Federal Court law case was caused. I made the Federal Court law case pro se. I filed my law case in the U.S. District Court for the Eastern District of Pennsylvania, Case number: 2:26-cv-02712-JP. Harvard Law School is not a party of the case. The case is not against Harvard Law School and is against the United States because of the United States, vicariously liable for Trump and the Trump administration, not doing its work.

If anyone here of Harvard Law School wants to communicate to me concerning anything relevant involved, email communication can be sent to me, and I will look it over and respond accordingly. A six-week session can still be worked out for working on and issuing an S.J.D. degree to me from here, Harvard Law School. This six-week session is still possible virtually – online with remote working. Just let me know if there are any possibilities from your end or even if just having any communication for me. If you have to wait more on the Federal Court law case developments, that is ok too. I just wanted to inform you here at Harvard Law School of the status of my latest endeavors that I previously notified you of in 2025-2026.

Thank you,

Joseph Mallon
