

UNITED STATES DISTRICT COURT
EASTERN DISTRICT OF PENNSYLVANIA

Joseph Mallon

Plaintiff

Case Number: 2:26-cv-02712-JP

v.

United States

Defendant

Areas for Two Filed Motions: Mediation and Professional Aspects

I established this law case in the United States District Court for the Eastern District of Pennsylvania following my Standard Form (SF-95 form) being neglected at the White House and the Department of Justice (DOJ) through more than six months. The main charges for damages to my career and finances and causing the SF-95 form and then the resulting law case were negligence and defamation. I want and require offers and opportunities on my levels. I am supposed to be rewarded and honored. I am a successful person, an advanced person, a historic and honorable person. I have significant credentials and am on doctoral and executive levels. I need and want my already earned prestige and authority so that there can be and are right situations.

What offers are there for me? What incentives do I have? What is there to present to me that I have to review, work with, and act on? Relevant communication has to be made to me, or the law case continues. To work out the law case in the immediate times, I have a Motion for Mediation filed along with a Motion to Take Care of Professional Aspects. These Motions can be acted on immediately and continuing to settle the law case so that more is not necessary.

I demand my credentials be secured as they are supposed to be and have to be. I require my licensing secured on United States levels for my career times, semi-retirement, and retirement after my age 85 or so. My licensing includes primarily lawyers, securities, and insurance licensing and secondarily real estate, auto sales, and property and casualty licensing. Academically, I have been on a doctoral level since 2012, and I require my doctoral status secured. My business doctoral dissertation was done in 2012. My business post-doctoral dissertation was done in 2019. My doctoral law dissertation was done in 2024.

A common United States advanced national level of pay for a salary is more than \$100,000 yearly. My true pay is very high and I am owed a lot of money and have been through a very long time, and that is why my current professional situation includes having a U.S. Federal Court law case I established. I am requesting and requiring an immediate pay as something, which could be \$2000 per week, until more is reasonably worked out. I also would like and request and require, as reasonably possible, a back pay to at least address my back-pay issue. The back pay could be anywhere from \$50,000 to \$1 million, for now, as is reasonably possible. The situation of reasonable possibility is because of my enlightenment and has to be recognized and understood as my good qualities, willingness, and efforts to work out the situation mutually and successfully.

The United States is the party involved with myself and my law case. This United States has to work on my law case and be the real United States working on this law case to the point where the United States itself is working on and with this law case. United States attorneys have to be working in representation of me on this law case because this law case involves and is the United States. An adequacy concerning my professional position with the United States has to be worked out right away. I have more than a 30-year career that has to be secured and honored with the United States and including with a public office of trust and honor. The U.S. Department of Sovereignty has to be secured and honored as being established since 2019 and with me being the Director of the U.S. Department of Sovereignty since 2019. Myself being worked with toward the United States Presidency in 2028 has to be commenced and advanced. The Republican Party has to be securely tasked to do its work in this area.

The Trump administration has to be secured at doing its work in right ways. There can be only what is in the interests of the United States, which is this United States that I have been mentioning about, the one working on and with this active U.S. Federal Court law case. Trump continues, as long as having good behavior, in the U.S. Presidency until 2028 and then gracefully turns over full U.S. Presidential power and the White House to me in 2028. Trump has to complete any construction work he is doing or having done because I require a finished product that I do not have to fully do myself or redo. I have plenty to do myself, and I already did a lot myself. Anything Trump or the Trump administration does further that is not already done or set has to be mutual with me and under my authority. I require the U.S. economy being in good and progressive conditions. United States dollars and cents continue being used, but also, God's Miracle Cross crosses and faces currency has to be advanced nationally and to points of globally.

With my established U.S. Federal Court law case active, I express these areas for immediate mediation within the bounds of my two filed motions: Motion for Mediation and Motion to Take Care of Professional Aspects.
