Part 1 – Monday, August 17, 2026

I myself or the U.S. Department of Sovereignty do not support militaristic activity against Iran. Recommended and demanded is immediate and continuing deescalation of the situation concerning Iran. No specific agreement from Iran is needed or warranted. Trump along with the Trump administration went through the entire year of 2025 without taking care of in a good faith or mutual way my claims, my valid and important communication, or the issues involved, and my SF-95 form I submitted in the middle of October 2025 has still not yet been handled or worked out when the present time is after four months. Trump, the Trump administration, or the vicariously liable United States can worthily expect nothing from Iran.

Deescalating the Iran situation is necessary immediately. I request and call for my own administration to be initiated and empowered by law, including U.S. law, over Trump and the Trump administration for going toward the 2028 U.S. Presidency and including with the previously requested 5,000 U.S. paid personnel. Even with the Trump administration attacking Iran jointly with Israel, none of the issues involving myself or my active SF-95 form have been addressed or worked out. With this U.S. militaristic situation as described, I also request security I should have provided by the United States government itself, including concerning my involvement with the United States.

You of the White House did not yet answer. You have not yet responded to my communication. You have not yet addressed any of the issues involved. I request you make adequate efforts to work out the long-time requiring and active situation and relevantly communicate back to me.

Are you aware that the Republican party has not been communicating, either? The Republican National Committee (RNC) has been communicated to through 2025 to now also, and has not been appropriately, functionally, or mutually communicating. I have direct evidence of this situation. If Republican party members express anything for or against in any direction relevant to here, Trump, the Trump administration, the White House, or the United States, there is no foundation for truth or trust of those people. Those people have not been communicating or participating with other legitimate, worthy, and honorable people. Those people cannot be trusted and have no valid authority. I am just

adding in here for awareness that if any of those mentioned people (Republicans) show up as a factor in any way, they should not be adhered to or tolerated. How much more so are the democrats? The democrats are not as much informed and do not have as much directly on track or relevant, but still, the democrats are more so minus the information I have been communicating about. Do not be fooled, deceived, misguided, or lied to when you know my material has been here through the entire year of 2025 and through to now in 2026. Their material has not been here that long. There is no other material like mine. You know my material is from the true person with rights, knowledge, experience, and worthiness to take over the Republican party and the United States and U.S. Presidency from now to into and beyond 2028. You know you are not going to stay there yourself, and your best chance is with me, working cooperatively, progressively, and adequately mutually with me. I am the only one who can straighten out your U.S. Presidency situation now and progressively on to beyond 2028. I am totally separate from you and your family and your Trump administration circles, but I am truly an American, a U.S. Citizen, a historic and honorable person, a very knowledgeable and qualified person, and an extremely worthy person. If you advance at dealing well with me, that would be optimal for all involved.

I received an email that said it was a Response from the White House to my message. I was referred to as Dr. Mallon. I still need the status level fully secured.

Part 2 – Monday, August 17, 2026

My communication and materials have been in the Trump administration since 2017 on during the first term and then since the start of the second term in January 2025 continuously through the entire year of 2025 and into 2026 and up to the present in April 2026. I now received an email that says “The White House” – “Response to your message.” The message itself is titled with “The White House” and dated “April 2, 2026.” The content appears to be that of a form letter and does not address any of the active issues that are proclaimed in my materials. This message is not a functional message that I can follow-up on and achieve progress concerning any of the issues included in my materials. There is not any indication of improved communication.

My SF-95 form is still active as it has been for almost 6 months now. My SF-95 form was not addressed in any way in this White House response. Nothing of the content of my SF-95

form was included, and nothing was worked out with me. No offer was made to me to settle or handle the SF-95 form. I was not provided with any additional means to take care of the matters involved myself. I was not offered any additional assistance to advance the situation concerning anything involved with my SF-95 form or the seven included claims concerning the United States.

The April 2, 2026 Response letter follows.

Dear Dr. Mallon,

Thank you for writing.

I remain committed to advancing a foreign policy of peace through strength and ensuring that our military is prepared to deter threats and defend American freedom. My Administration will always protect the sovereignty of the United States by strengthening our defense and equipping the mightiest fighting force in the world. As Commander in Chief, I will always put our citizens, our values, and our Nation first.

May God bless you, and may He continue to bless the United States of America.

Sincerely,

Donald Trump

My Response to the Response -

Greetings Donald J. Trump,

You're welcome. I have written to you since 2017 so that you could know what has been going on and would have full awareness. I continued this informative writing to you since January 2025 through to now in April 2026 so that there could be right directions gone and advancements made on requiring and active levels. Upholding America's international activity to remain mutual by being securely successful and making sure that the divisions of the United States are performing optimally repels contrasts and keeps open paths of choice. The executive branch of government had so much of a sovereignty area requiring attention in more than a quarter-century back in 2019 that a distinct division of sovereignty was advanced, the U.S. Department of Sovereignty, which had full rights of guards and laws for stability globally. I myself am the Discoverer of God's Miracle Cross and the one who has been the Director of the U.S. Department of Sovereignty since 2019, and all of this country continues being maintained for this country's citizens, culture, and foundation for the civilized world.

Benefits of God's Miracle Cross continue, and divine life forces continue from beyond and throughout the United States of America.

Thoughtfully,

Joseph Mallon

I demand the United States government show some responsibility. I repeat all I previously have stated up to and on 01-22-2026. The United States has worked out nothing yet and has not paid any money due or involved. The United States has acted very irresponsibly by there not being even a sufficiency in 2025, out of the entire year of 2025.

WHAT IS SOME OF THE RELEVANT WORK THE UNITED STATES DID, AND HOW MUCH DID THE UNITED STATES PAY OF THE MONEY INVOLVED?

Part 3 – Monday, August 17, 2026

Even after the April 2nd, 2026 letter from Trump at the White House, everything was left neglected and not worked out. That was another chance you, Donald Trump, had to deal with me and the issues involved. You made the letter be of no benefit. No offer was made to me. There was still no real communication or increase of functional communication. Yet, I was someone who was a Very Important Person concerning the United States and had valid communication and materials with the United States at the White House through the entire year of 2025 and to the then present in 2026. I also had many credentials for the professional work involved, and I had bills to pay and various expenses, so I needed, and had rights to have, my work rewarded and honored, including by an adequate pay to me.

Among various similar types of occurrences, I was again insulted and offended when Trump and the Trump administration ran off to China, and with 50 CEOs of American companies, while leaving me out of everything, not invited, and not even cared about at all. These CEOs were not associated with the United States government and did not have as much as I did with the United States government, including actively through the entire year

of 2025 to the then present in 2026. Plus, I even already received the Trump letter from the White House of April 2nd, 2026, so that evidenced that the Trump White House letter was not meant enough and did not adequately take care of matters involved. I was requiring to be dealt with, rewarded, and honored, and I would have liked to visit China and see the sights of China in modern times, but I was left out of everything, and only those 50 CEOs were included. I am not sure if the 50 CEOs paid their own costs for the round-trip transportation to China and back or for the living accommodations of lodging and food. I was wondering why 50 people who were associated with the United States were not invited on that trip to China to see the sights of China in modern times and to have a good travel and vacation-like experience. Why were 50 people of the judicial branch and of the legislative branch of government not invited, instead of just 50 CEOs of non-United States associated companies, even if they were allegedly friends of Trump, and when I was a very good and nice person myself also and had the U.S. government association I had been describing through more than a year previously.

Plus, I was a United States person who had an active law case, 26-cv-02712, concerning the United States. I had to be and watched to be dealt with appropriately through all that time. I needed and was worthy of my money, and other rewards and honors I was supposed to receive. I already went through a long amount of time previously and was going through a long amount of time concerning the active law case that was following six months of an SF-95 form not being acted on and being treated like it was not even there.

The obvious situation is that I have to have and there has to be my law case, 26-cv-02712, fully enforced. Nothing else is doing anything or is sufficient to have anything regarded or dealt with. No other way is enabling advancement of the long overdue situation described in my materials communicated to the White House through the past years and up to the present. I will have to further proceed in these ways and do the best that can be done within the bounds of the law added in here (Mallon v. United States, 26-cv-02712).

Part 4 – Monday, August 17, 2026

The neglect of taking care of the matters involved caused a difficult situation. Much is hard to explain about because of the complexity. People have a lack of receptivity when something is different and not what they are used to or what they already know. People

tend to not want to bother with something that involves significant meaning, time, money, work, or numerous people and especially when they are not previously aware or paid to do the work. Individual people often do not want to, or cannot, do work that involves numerous people or a societal level. The United States has to be held accountable for all the information involved though, because everything involved is not beyond the United States or people associated on advanced levels.

When it comes to these long-enduring areas that required through years, there has to be adequate comprehension and accountability of everything that cannot just be easily said conveniently in a few moments, and nothing can be limited to only what is just said in a few moments. The United States is responsible for all the details and the volumes of information in forms of text, documents, files, accounts, websites, books, contracts, licenses, appointments, films, pictures, videos, media, or any equivalents.

I am not going to be the only one doing the work here. The United States is responsible for having enough people working in these areas and providing people with enough information and informing them about anything relevant to them concerning the United States government and including if involving me in any way. For the United States to advance implementation of working appropriately on these areas of my materials, and myself and the issues involved, to start, a group of 5,000 people is needed to be assigned and must be immediately put into action and with a U.S. personnel area ensuring the payroll is functioning accurately and successfully. Be advised and alerted that with so much of this U.S. sovereign area not dealt with in so long—years, a serious national and international security issue is active internally and externally. The situation with U.S. Sovereignty at this point of after the entire year of 2025 can be considered as a national emergency. 5,000 U.S. personnel at a minimum are needed immediately.

WHERE ARE THE 5,000 PEOPLE OF THE U.S. PERSONNEL?

The SF-95 form I was caused to have to make and follow-up on last year continues presently after 3 months. I continue to watch for if any settlement offer is made to me. If nothing is presented to me, the United States with vicarious responsibility is causing a Federal Court law case to be necessary, and I already stated my terms concerning such a law case and am continuing to declare the United States being responsible for all legal fees

and court costs of the U.S. Federal Court law case the United States caused. I request the United States immediately pay \$1,000,000 for a law firm fees, which includes \$100,000 for a retainer and \$900,000 for follow-up legal work on the law case the United States caused.

WHERE IS ANY SF-95 SETTLEMENT OFFER MADE TO ME? NOW HAS BEEN FOUR MONTHS WITH THE SF-95 FORM ACTIVE (10-15-2025 TO 02-15-2026).

DOES THE UNITED STATES JUST WANT TO CAUSE A FEDERAL LAW CASE?

IS THE UNITED STATES READY TO PAY FOR ALL COURT COSTS AND LEGAL FEES OF A FEDERAL LAW CASE THE UNITED STATES CAUSES?

IS THE UNITED STATES GOVERNMENT PREPARED FOR ME TO HAVE FULL AUTHORITY CONCERNING A FEDERAL LAW CASE THE UNITED STATES CAUSES AND TO PAY ME REWARDINGLY AND HONORABLY FOR MY TIME AND WORK ON A FEDERAL LAW CASE THE UNITED STATES CAUSES AND ALSO TO REFER TO ME AS “YOUR HONOR” AND “HONORABLE” WHENEVER REFERRING TO ME OFFICIALLY OR FORMALLY INVOLVING THIS LAW CASE THE UNITED STATES CAUSED?

Part 5 – Monday, August 17, 2026

The present time is after 6 months since my SF-95 form was signed for as received at the U.S. Department of Justice (10-15-2025 to 04-15-2026). No offer from the United States was made to me, and nothing was worked out with me. I started looking for a law firm to do the legal work on the SF-95 form that was not responded to in six months. Most law firms do not do or want to do this type of work because they want something that is usual and commonly worked on in the legal profession, such as a physical injury caused by a government employee or medical malpractice. However, my area involves the government associates—employees committing professional malpractice and gross negligence by not doing their jobs in any good faith way, needlessly causing an excess of time to go by without progress, and hence, causing damages to my career and finances, especially with the United States government.

I gave the situation a chance for a law firm to work with me. I wanted a law firm to at least make the SF-95 form case in Federal Court. Weeks went by without a law firm agreeing to work with me and make the case in a Federal Court. With the situation involving the United States and myself being so important and urgent, I decided to necessarily make the law case pro se myself in a Federal Court, in order to fulfill my duty.

The charge is U.S. official negligence, professional malpractice, defamation, and nonperformance of duties, which left me not dealt with, rewarded, or honored when I was supposed to be dealt with, rewarded, and honored. I have additionally been communicating about the SF-95 form. I expressly stated that if six months go by without resolution, a Federal Court law case is caused. With the SF-95 form, administrative remedies are exhausted when six months go by with the form context unaddressed. I also should have, and request, full U.S. attorney representation at this point. If you neglect what is of this SF-95 form, you of the Trump regime United States are causing this law case and are abandoning or defaulting on all on your part. Plus, since I have extensive United States background, including with law work, such as a doctoral law dissertation, requiring to be rewarded and honored, if you cause such a law case, you – the United States – has to pay for all court costs and legal fees, including pay to me for my legal work on this Federal Court law case. As you know, and can see, I already earned a pay for doing involved law work, and because I have bills to pay, I request a pay immediately in the form of a check or direct deposit. You – the United States – has to regard, respect, and honor my legal findings on this law case and are fully legally bound to any and all resulting law, which is fully enforceable, legally binding United States federal law. Plus, whenever referring to me involving this Federal Court law case that you caused, you – the United States have to refer to me as “Your Honor” or “Honorable.”

Part 6 – Monday, August 17, 2026

Now, as of 05-07-2026, with the current status of the Federal Court law case, following the SF-95 form not acted on or responded to by the United States, vicariously for Trump and the Trump Administration, the law case was made, and I filed two motions. The court issued a summons to the United States, vicariously liable for Trump and the Trump Administration, giving the United States 60 days to reply. The United States can reply at any time within the 60 days. The United States can act on my first Motion, which is a Motion for

Mediation and can act on my second Motion, which is to take care of professional aspects. These motions and this case can be acted on and worked out with me at any time before and up to 60 days but cannot be let to go beyond 60 days without a response.

As of the present in August 2026, the time I am making this notation, Donald Trump, the Trump administration, or the United States vicariously did not respond to myself or the Federal Court, which is the United States District Court for the Eastern District of Pennsylvania. The vicarious United States did not act so far on any motion that was made or respond to the summons yet. I had to do some additional work on the summons and resend it, but once received again, it has to be responded to within the 60 days allowed, which will be until October 13th, 2026. Most people, organizations, and entities are allowed only 21 days to respond to the Federal Court summons, but the United States is allowed extra time so is let to have 60 days, more than double the amount of time. Still though, this vicariously liable United States does have to respond or work out something successfully within the 60 days allowed. After the 60 days, I will file a motion for judgment by default, and request relief of everything demanded in my complaint. On August 5th, 2026 the Federal Court judge looked at the documents I had on file with the case and did some things with some documents. The next day I conversed with the court clerk to know what was involved. I was told the information I needed and then did some more work on the documents to make them more as they should precisely be according to the Rules of Federal Civil Procedure. The documents are still there and are able to be further worked on and advanced. I already commenced at adding the intricacies needed.

I have gotten the additional work done on the law case. The law case remains fully active, worthy, and ready. All relevant rights remain declared and valid accordingly with the dates of the law case (26-cv-02712, Mallon v. United States, 2026). All contrary that has any direct relevancy remains invalid.

The U.S. government has not provided me with any security yet, in any way, including in terms of me being dealt with adequately in this country, U.S.A. Trump or the Trump administration failed to deal with me, and nothing is any longer acceptable on the part of Trump, the Trump administration, or a separate, unassociated United States. My law case that I made and have active has to be regarded and dealt with (26-cv-02712, Mallon v. United States, 2026). I require my authority. I am ready and eager to issue orders that are necessary.

I request and demand for my team to be set with the United States. The United States is supposed to be mutual and facilitative and is supposed to be on the same side as me.

Part 7 – Monday, August 17, 2026

WHERE ARE THE PEOPLE? WHERE IS THE UNITED STATES BEING ON MY SIDE, BEING ON THE SAME SIDE AS ME, AND BEING ON THE SIDE OF THE REAL UNITED STATES?

I want to see, among other things, the official agreements, the relevant people doing the work involved, the media coverage, the websites, the accounts, and the increases I am supposed to be seeing.

WHERE ARE THE TOOLS OR MEANS FOR THE WORK TO GET DONE?

I hereby order and demand everything I already have stated, including my high ranking U.S. government sovereign authority, and an official adding on to the SF-95 form of a national honor obligation the United States has to pay to God's Miracle Cross of a \$1 million or \$1 billion honor per day (according to the amount Congress decides under my authority, after each Congressional member has had ample time before the time limit of 1 year from 10-23-2025 to review and understand the relevant information concerning God's Miracle Cross and the United States of the past more than 30 years) as the current time since October 23, 2025 goes by until there is a sufficiency regarding my claims concerning the United States (October 23rd, 2025 to...).

WHERE IS THE EVIDENCE THAT MY SEVEN CLAIMS ARE BEING ADEQUATELY WORKED ON AS OF A PARTICULAR DATE AFTER OCTOBER 23RD, 2025?

I continue with my active professional position, and merits, credentials, and potential concerning the United States government and with my seven claims already officially made with the United States since more than a year ago. I have to be paid my pay for each pay

period as the time passes by. The United States government has to set up direct deposit or mail me paychecks. My professional status authority has to be respected and honored ongoing, and any communication I make has to be appropriately worked with and worked out.

I WANT AND HAVE MY JOB IMMEDIATELY AND CONTINUING WITHOUT ANYTHING BEING UP TO ANYONE ELSE, AND EVERYONE ELSE IS RESPONSIBLE FOR DOING WHAT IS ACCORDINGLY SUPPOSED TO BE DONE. I DO NOT WANT TO AND CANNOT HAVE TO OR BE CAUSED TO WORRY ABOUT EVERYTHING THERE IS, AND OTHER PEOPLE HAVE TO DO WHAT THEY ARE SUPPOSED TO DO. I ONLY DO MY JOB AND ONLY HAVE TO DO MY JOB. A PART OF MY JOB IS TO SAY OR EXPRESS WHAT IS INVOLVED, TO BE REGARDED, AND TO SUPERVISE—OVERWATCH FOLLOWING.

I again repeat everything I previously said up to January 22, 2026 and continuing. The United States government and its relevant people associated have been well informed. There is no real excuse for there to not be a sufficiency in the directions of my materials and the issues involved. I require an adequacy of relevant and functional communication from the United States government. I expect all I previously presented to be known and understood. All I specified continues being upheld.

I REQUEST BEING KNOWN, REWARDED, AND HONORED AS HAVING MY JOB WITH THE UNITED STATES GOVERNMENT, WHICH INCLUDES MYSELF BEING APPROPRIATELY PAID IN AND THROUGH THE PASSING TIME AND HAVING ENOUGH POSITIVE, MUTUAL, AND ENHANCIVE COMMUNICATION AND MEDIA COVERAGE.

I repeat my claims following.

(1) God's Miracle Cross – involving the United States – has to be nationally worked with since more than 30 years ago

(2) Law Cases with United States – U.S. Attorney has to be assigned to work with me on law cases for U.S. Courts and must communicate with me to advance the law involved

(3) United States Official Professional Position – Must be fully set officially with the United States, and some back-pay or a bonus has to be paid to me

Part 8 – Monday, August 17, 2026

(4) United States Past Debt to Me – Joseph Mallon – payments and arrangements have to be set and advanced in regard of the past more than 30 years of relevant and official work I did, including up to U.S. Chief Executive Director levels

(5) University of Phoenix Claim – \$500 million has to be paid to me

(6) Hospital Claim – \$109,441.71 discounted 80% leaving \$21,888.34 for United States to pay, plus work on healthcare advancement is needed and required on U.S. national levels; adding on to this healthcare claim is necessary because of additional costs being added for the months of January and February, and any additional months, of 2025 when these claims were not sufficiently advanced or secured

(7) Student Loans – Student Loans Defense Number: 01400527 – my approximately \$250 thousand student loans were fully, justly, successfully, and worthily discharged; I have a doctoral dissertation done in 2012 and earning my business doctorate. I have a post-doctoral dissertation done in 2019 and earning my business post-doctorate. I have a law edition of my post-doctoral dissertation done in 2024, earning my law doctorate, and have to have secured a doctoral law degree such as an S.J.D. doctoral law degree from a qualified American law school such as Harvard Law School.

Claims concerning the United States

Please send communication and pay to me from the United States government as soon as possible.

Thank you

Congressional Question of God's Miracle Cross U.S. Claims Honor Amount

Originally dated: Wednesday, January 28, 2026

U.S. Congress,

Seven claims were made and presented to the United States in the summer of 2024, following Trump's first term, during Biden's term, and while Trump was consistently campaigning to get back into the White House, and these claims were continued into the start and continuance of Trump's second term. These claims continued since January 2025 and through the entire year of 2025 to the present in 2026, but without being secured and advanced as they were supposed to be. There is much involved with the situation when these are claims concerning the United States. These claims were already present after 25 years, a quarter-century. That is why they were there and on such a significant level.

Consider all that happened through all that time of the entire year of 2025 to the present in 2026 while these claims were present and requiring to be dealt with but still not dealt with. Consider how different the situations would have been with these claims being adequately worked on in the times, as was right and necessary. Consider the levels involved, consider the parties involved directly and indirectly.

Also consider that the Congress was fully left out of everything and otherwise would have been informed if the work was done on the claims instead of leaving them still just requiring and unaddressed. The work not being done on these particular seven claims caused the Congress to not be able to directly know about or use anything relevant to the seven claims during the time and events of 2025 to the present in 2026, no matter what was involved with these events. Just think how many people's careers and lives were affected by this situation, and to be kept considered is that it would not be anything less if there was something more, such as this particular information, to add in a good and constructive way to a situation.

Part 10 – Monday, August 17, 2026 - Congressional Question of Honor Amount

This occurrence of the claims being present and the Congress not being informed was continuing since before the claims were made and then during the claims times of more than a year of the work through the times, which is work of the career. That work of the career was caused to be what it was, as can be reflected on by each congressional member accordingly. With all this and anything more considered relevant to the particular seven claims and the substance of the seven claims, which is the reality of God's Miracle

Cross, something significant and not less or just nothing, congressional members are free to ponder and make a decision of Congress as a whole, following each individual congressional member deciding, on a \$1 million or \$1 billion honor to award to God's Miracle Cross from the United States for the days of the seven claims requiring but not handled yet since October 23rd, 2025 to _____. The Congress decides the amount of \$1 million or \$1 billion per day as an honor to God's Miracle Cross. What should the United States pay to God's Miracle Cross as an honor, \$1 million or \$1 billion per day when these seven claims were present in the White House and with the United States after more than a quarter-century and were still being left ignored and neglected as the time went by since October 23rd, 2025?

Additionally, congressional members have to keep considered that everything here is being done under my authority, the authority of Joseph Mallon, the discoverer of God's Miracle Cross and the one who made these particular seven claims concerning the United States, but also while always having involvement with the United States and having a directorship set as the U.S. Department of Sovereignty director since 2019, and there is not only one person involved with this United States claims honor amount issue but is this department of the United States, which is the U.S. Department of Sovereignty.

Furthermore, the \$1 million or \$1 billion per day as an honor to God's Miracle Cross does not have to be paid immediately or all at once but just has to be decided on, as far as to whether the amount is \$1 million or \$1 billion per day. A background consideration is that I have been and will continue working on the United States being more than able to afford the amount of honor pay. My initiatives include developing and advancing a new more than a quarter-century requiring and worthy U.S. and global currency, which is God's Miracle Cross crosses and faces currency. I would like to make it so that each U.S. Citizen has enough of the global currency to live reasonably in the United States, just like having enough education because of it being needed in the modern, advanced society to function normally. With the resources and support of the United States, and including with its Congress, all this and more will be possible.

What is the Congress decision?

What does each congressional member decide?

Should the United States honor to God's Miracle Cross be \$1 million or \$1 billion per day, October 23, 2025 to _____?

Justification of the Sum Certain of \$1 Trillion Stated on my SF-95 Form

There are many reasons and justifications for myself stating the \$1 trillion sum-certain amount on my SF-95 form. All on my part has value and always did. My materials have been presented and with the Trump administration directly since 2017, eight years in total at present, with the time including as Trump campaigned through the 4 years of Biden's term to get back into the White House. There are more than 30 years within the bounds of my 7 claims.

My 7 claims were made more than a year ago and went through the time requiring without being taken care of adequately, in terms of being secured and advanced.

My claims, and the content and issues, were relevant and significant to the country, U.S.A. and up to highest levels of the country, U.S.A., often in the years and decades.

My claims and what was involved with them involved years of professional work, careers, and industries, and billions of dollars in American money through the times of years and decades since 1981.

Why should there be only an automobile manufacturer paying a salary of \$1 Trillion to a person and like there is no other person worthy of a \$1 Trillion pay? Why should the United States government, a major government, not pay a high-level salary on competitive levels with other major entities or organizations, such as the automobile manufacturer, and sports, entertainment, lotteries, healthcare, and information technology – artificial intelligence industry organizations? The United States is a government, a major government, and when it can and should pay a high-level pay, why should it not do that? Why should a car manufacturer beat out the United States or be better at rewarding than the United States government? The same goes for the other types of organizations like sports, which has often already been said about in the past. There can still be a watching

for propriety in these directions so that everything is not just money chasing and without justification or just involving greed, but when having propriety and worthiness, there can, should be, and has to be the correct rewarding monetary amounts involved with the United States government.

All this is in addition to the Trump administration situation where Trump and his family and associated business organizations have been making all kinds of money but still have all these involved areas mentioned about herein not worked out and unrewarded. Trump increased his wealth for himself and his close circles, while the merit and worthiness was not at peak because of all these areas left out of the requiring work being done and successes being achieved. The United States cannot and should not deny people who through the times and years truly have the wealth, earned the wealth, upheld and advanced the wealth, and have the merits, worthiness, honorability, and potential for continuing success, increase, and advancements, including concerning this country, U.S.A.

Supporting documents described some of the wealth involved, including the discovery in 1981 of a priceless object referred to as God's Miracle Cross and advancing of a new currency that is more than 30 years valid and requiring concerning the United States and the global society. The supporting documents described myself being a real person and one person involved through the times of the seasons and years that have been gone through formally and officially, and the documents also describe a department of the United States being involved through the past almost 7 years.

Part 12 – Monday, August 17, 2026 – Justification of Sum-Certain of \$1 Trillion

I, myself, had through the years a directorship level professional, official position and office requiring with the United States, three dissertations requiring in directly relevant fields of business, law, religion, governance—political science, education, securities and the financial industry, and I had applicable and requiring licensing of insurance, securities, and law – lawyer's license, and real estate. The three dissertations were caused to be necessary because of the University of Phoenix not completing its end of the original doctoral program in 2012, as became more and more known about through the following years to in 2019 and continuing.

The second dissertation was a post-doctoral dissertation and went beyond the bounds of the involved university and was communicated about to the White House that neglected working adequately on the dissertation or anything relevant involved in 2017-2019. Because of previously being in law school and having relevant law cases in U.S. courts, another edition of the dissertation was done, which was the third dissertation and was a law dissertation that bridged the past 30 years together. Being that I was already on a doctoral level since 2012 and then having present this third dissertation, after 12 years and after more than 30 years since law school and the U.S. court law cases, the law dissertation was factually a doctoral law dissertation, which was completed in the end of 2024. Serious and functional communication was made from myself concerning everything involved, and including with my 7 claims, through the entire year of 2025. By in February 2026 when I made these notations, no relevant or functional communication was made with me, and nothing even adequately was worked out with me. I was left neglected and with everything still requiring. I was not happy about that, and I had to go through much more aggravation than I should have had to go through and otherwise would have gone through had the matters involved been taken care of sufficiently.

I had all this present and was left like I had nothing instead. I was not getting paid my career type of pay or accumulating my career type of wealth, such as benefits like vacation or retirement funds, and I was already through more than 30 years of the mentioned career work. I had bills to pay and many various expenses that I had to keep up with, and I already went through a very long amount of time.

A major healthcare incident was caused in the beginning of 2024, and I went through the following times recovering and appropriately communicating, but still, I was not dealt with yet concerning anything relevant involved. I had to work with a disadvantage following the healthcare incident and still am doing so, as of the present time of 02-04-2026, but also, I have still not been dealt with at all yet in any relevant, adequate, or directly involved way. The only way to reasonably alleviate the healthcare situation is if there is successful advancement in the healthcare industry, which was possible and included in my materials through the entire year of 2025 but that the United States, with its vicarious liability for Trump and the Trump administration, left neglected, unadvanced, and not worked out.

The healthcare matter was included in claim 6 of my 7 claims, which are all still requiring and not worked out after more than a year, so for these and many other reasons, I am saying \$1 trillion as a sum-certain, and while I am not limiting everything involved to being \$1 trillion, I am using that amount here on my SF-95 form as an appropriate sum-certain amount to declare.
