United States,

I request that the United States work out the issues involving me concerning the United States. These issues, and who I am, should be adequately known about by responsible people associated with the United States (<https://www.godsmiraclecross.com/realms>). My material has been in the White House on numerous occasions since the early 1980s. I am the discoverer of God's Miracle Cross, which in its original form was an authentic miracle and is referred to as God's Miracle Cross. The design of the miracle cross was patented and copyrighted and, of course, significantly communicated about through the past quarter-century. I have involvement and rights with the United States, and I request adequate recognition and benefits from the United States in the immediately continuing times and without going longer or explaining more.

My career and professional position has to be secure and with pay, status, and benefits included. I have to have what I should have as the years go by and cannot be left with nothing instead. I made law cases in the U.S. courts back in the early 1990s, but those law cases and their issues and merits were not worked through, so now I request the work be done since then to the present and realistically and honorably (Dist. Ct. Case Number: 92-3242; Apls. Ct., 3rd Cir. Number: 92-1736; S.Ct. Number: 93-5183; G.Ct. Number: 93-0001). Because my material, and all involved, goes from more than a quarter-century ago to the current times, I expect everything to be put in current terms and forms and be actively and constructively worked on, including to my mutual satisfaction.

This is a claim. I have claims concerning the United States. I need these claims worked through. I need the benefits, pay, status, rewards, and honors from my claims and cannot just keep going longer and longer through my career and life without what is due me.

Claims I have concerning the United States are (1) God's Miracle Cross being dealt with on United States levels, (2) original law cases with the United States being dealt with since 1991, (3) United States professional and official position worked out and adequately and up to date, with pay and benefits included since before, and not limited to, the Trump administration times and including continuing through the Biden administration times and on until when sufficiently settled; (4) past money that the United States has indebted to me has to be adequately paid or

being paid up to date; (5) the University of Phoenix claim of \$500 million has to be paid to me, and the issuance—turning over of my doctorate to me, and including adding on my post-doctorate, is necessary; (6) I have a \$109,441.71 hospital claim added on because of causing a healthcare issue that required a more than two-week hospital stay, and with no active healthcare insurance or benefits that should have and otherwise would have been there had these matters been adequately dealt with or worked out in or through the times on the part of the United States, and because I did not have active healthcare insurance, the hospital gave me an 80% discount which makes the hospital claim added on for the United States be \$21,888.34, and (7) my approximately \$250,000 student loans have to continue being discharged (*Sweet v. DeVos / Cardona*, No. 19-cv-3674, N.D. Cal.) and any of my student loans left out of the discharge have to be included and discharged in a ***Student Loans Relinquishment Honor*** that the United States bestows to me.

Please respond cooperatively and respectfully to this letter and as efficiently and honorably as possible would be appreciated.

Thank you,

Joseph Mallon, MBA, DBA(c), doctorate earned and requiring since doctoral dissertation completion in 2012 and post-doctorate earned and requiring since post-doctorate dissertation completion in 2019, U.S. Director, Series 7, 6, 63, 26, and 65

Message sent to the United States by way of the White House

Part 1

I said I have claims concerning the United States. I requested my claims be secured and to receive information as to them being secured. Please send an appropriate response to me.

The following is a little from my Executive Director Report - Sovereignty 2023
(<https://www.godsmiraclecross.com/realms>).

Law cases in U.S. courts went from the District to U.S. Supreme Court. There were years of maintaining the law without any support and just with natural law and its true elements requiring upholding. There were years of work in various fields and to high levels and too often without the high levels regarded or rewarded, while they were requiring to be and were supposed to be regarded and rewarded and did still have to be. Five major societal events were gone through, and still these people involved regarded nothing and remained so insulting as to continue doing what was extensively being complained about in many ways. These ways of saying in an advanced, civilized way of something wrong being done and to stop and correct included formally, as a dissertation, student loan defenses and their law cases, advanced professional level materials, and years of all this, as nothing else was evidenced (<https://www.godsmiraclecross.com/realm>).

Here is Part 1, but I am including a Part 2 of this message, too. That follows this message to say I expressed I have claims concerning the United States and request that they be secured and for me to receive confirmation of such securing of my claims with the United States.

Part 2

Reiterating that I have claims concerning the United States... I requested my claims be secured and to receive information as to them being secured. Please send an appropriate response to me.

From my Executive Director Report - Sovereignty 2023
(<https://www.godsmiraclecross.com/realm>)...

The five major societal events gone through were (1) the Iraq War in 1991-1992, (2) the 2001 911 times, (3) the 2002 to 2010 Second Iraq War times, (4) the 2007 to 2010 Global Financial Crisis times, and (5) the 2020 coronavirus covid-19 pandemic times. Other major societal events gone through during the times of the presence and activity of my materials were (a) Afghanistan conflict, 2001 to 2021; (b) Libya being overthrown through NATO 2011; (c) Syria being overthrown 2014 to 2021; (d) North Korea provocations 2006 to 2021-2023; (e) Russia / Ukraine turmoil, 2014 to 2021 and 2022 to 2023 (and which escalated into a war and currently in 2022 and 2023 needs to de-escalate by means such as less militaristic expenditure and more diplomatic expenditure); (f) Iran non-mutuality 2010 to 2021, 2022, 2023; (g) Israel / Palestine (Gaza) flare-ups, 2006 to 2021 and 2023; (h) China disaccords 2008 to 2021, 2022 and further prodding into 2023; (i) Egypt / Arab spring destabilizing, 2010 to 2014; (j) U.S. southern border and immigration crisis along with U.S. southern wall endeavors, 2010 to 2023, (k) U.S. northwest disturbances; (l) U.S. protests racially antagonized and externally heightened; (m) homelessness and wealth distortions up to excesses in states such as California, Oregon, and Washington; and (n) fires of California (<https://www.godsmiraclecross.com/realms>).

Here is Part 2. The message says I expressed I have claims concerning the United States and request that they be secured and for me to receive confirmation of such securing of my claims with the United States.

I request the communication I made be appropriately worked with. The first letter I sent, dated June 22, 2024, was valid, worthy, and what I meant. I sent that letter in hard copy form and then following in electronic form.

I worked with much relevant to the United States for more than 30 years, which includes to the present. With the time involved, I can no longer tolerate not being dealt with or regarded. I have to have the benefits and honors due me. As said in my June 22, 2024 letter,

I have claims involving the United States, and I request, and ORDER, that they be treated respectfully and worked out.

Yes, I said ORDER. I have to be able to issue orders, if necessary for me. In my recent previous communication I did request a securing of me having relevant authority so that if I have to use authority to have something regarded or to get something important done, I can.

I am mainly sending this current communication to say I have not received any word back yet, and I do request appropriate communication back. I feel insulted by the Trump people and including most especially Trump himself. I do not want any more of that. I do not want to take it any longer. Everything there and going on is unacceptable. My material was within his administration since 2017 and not only right now in 2024. In addition, I have communicated to the Republican party since in the early 1990s, and I will not see the Republican party only working in the interests of Trump, especially while he leaves out all these important United States areas for myself and everyone else. I am here with much substantial and important concerning the United States since having that material there directly in the Trump administration since in 2017 and not just right now in 2024. The situation is outrageous and unacceptable that I am not dealt with yet in the rewarding and honoring ways due me. I am tired of that gross negligence, disrespect, malpractice, and contemptuousness, and I demand it be stopped and corrected.

Here, I sent this communication to the United States, not to Trump and not to a political party. I have rights concerning the United States, and Trump or a political party does not matter, and there should be no swaying of me not being treated right concerning anything relevant involved.

Please work out this United States situation, and inform me of the status. You can, if you will, consider this an ORDER.

Thank you
