

Harvard Law School, Graduate Program,

I am again sending this communication to keep the lines open and to see if there is anything additional yet. The United States has still not done or added to anything additional. Remember, I wanted Harvard Law School to boost and facilitate the situation. I reported to the United States a long time ago about violations of two of my claims as a result of the United States and requested the United States to do something about these violations.

I have not been dealt with yet. The United States did not work out anything with me. Nothing from the United States came through to me. Now is after Christmas 2025. I had important, worthy, and honorable materials with the United States through the whole year of 2025. Because of Trump and the Trump administration neglecting so much for so long, I had to make an SF-95 form that included my claims. Because there was nothing on the part of the United States by Christmas 2025, I had to do more with the SF-95 form and did.

The situation presently continues in these terms. If you here of Harvard Law School have anything to communicate to me or that you want to add for facilitation or supportive purposes, you can email me. Also, as I previously communicated to here, if you want to contact me for any reason relevant to the previous letters I sent or anything posted on my website, <https://www.godsmiraclecross.com/realm>, you can email me at [jmallon@comcast.net](mailto:jmallon@comcast.net).
