

U.S. Department of Education,

I am sending to here, the U.S. Department of Education, a copy of the latest letter sent to the Office of the United States President and the White House because the U.S. Department of Education has through the past years extensively been involved and aware of the relevant national level activity. Mainly, this letter to here is for informational purposes because the fully functional directions are the Office of the United States President and the White House. You can know here there is this letter, so full communication was made. There are expectations and responsibilities concerning the issues the letter says about, and there are rights and interests involved.

Everything involving the United States cannot be ignored and left neglected and unadvanced, and everything of the United States cannot be made into or to seem like something else and be left with a far lesser situation. For example, I have claims concerning the United States and that I have been saying about since the 2024 summer. You can see in my letter that I am saying about a professional position with the United States and a sovereignty area of the United States. Everything involving the sovereignty area of the United States must be under the sovereignty of U.S. Department of Sovereignty for whatever is involved to have validity. Again, for example, there may have to be a tariff or a tax for anything involving the United States sovereignty. Such matters as these have to be worked with and worked out, and that is what the claims are there for and are all about.

Further, you here of the U.S. Department of Education know, to at least a good extent, that the issues involving the University of Phoenix are still not truly settled yet. You know there is still a claim concerning the University of Phoenix. I have to be paid \$500 million, and that is another one of my claims concerning the United States. The U.S. Department of Education was one of the parties well informed of everything that was going on since August 2023 to in December 2023 when the university was in times of selling off to the other university but did so without first being made into a good product to sell off. The U.S. Department of Education was well informed of what was going on because the Department of Education was one of the parties that had to give approval for a sale of the University of Phoenix to the University of Idaho. Thus, the U.S. Department of Education has awareness and

involvement here and should know who I am and this University of Phoenix claim I have concerning the United States.

Of course, as can be seen in this letter, more than nothing has been being done here concerning the University of Phoenix claim. There is something involved and very much that is involved. The situation is not settled, and very much is actively requiring to work out the University of Phoenix claim mutually, successfully, and lawfully.

You also know here, and I have already confirmed in previous correspondence to here, that all of my student loans have been discharged very appropriately and justly. I am still very glad about that and pleased. I still must continue seeking for the rest of the issues involved to be worked out, such as my claims concerning the United States involve. Another example is that my doctorate has still not been issued to me, and I have not yet been benefited on doctoral levels. I earned my doctorate in 2012 and finished the doctoral program on an A GPA level and with an excellent doctoral dissertation. I had to continue doing post-doctoral work until I completed my post-doctoral dissertation in the summer of 2019. This accomplishment was communicated to appropriate places such as the White House in 2019. Full rewards and honors were not bestowed in those times, so continuing endeavors necessary had to keep being made. I next went through the following years, as you to an extent know, and next made my dissertation into a law doctoral dissertation. This law dissertation is now available for a law school, such as one I selected many years ago, Harvard Law School, to work with for issuing me my S.J.D. (Doctor of Juridical Science) degree. If anyone here can add to this situation being worked out successfully, that would be greatly appreciated because that is where this situation presently stands, although additionally this letter here is still specifically for informational purposes and has no other requirements.

Next, the letter sent to the Office of the United States President and the White House follows for the U.S. Department of Education to have its copy and to be informed of much important going on concerning the United States.

Joseph Mallon

P.O. Box 474, Souderton, PA 18964

Dated: January 28, 2025

Donald Trump, Office of the United States President, the White House, and for informational purposes, to the United States, PPSL, U.S. District Court Judge William Alsup and others relevant,

I am Joseph Mallon. You should know who I am. My professional / official materials have been in your administration's personnel department since 2017 (see DeStefano letter dated June 2017, Volume I, Worthiness of Director Position, [Perspectives | gmcrsswebsite](https://www.gmcrsswebsite.com/perspectives) - <https://www.godsmiraclecross.com/perspectives>). My materials and directorship was after 25 years directly involving the United States. My materials and directorship continued through the next years of 2017, 2018, 2019, and 2020 and on to now in 2025, but concerning my areas of official United States involvement, you and your administration did not take care of your end of the United States government functioning. I did my job, though, and was very successful on many occasions through the years. Because your and your administration's end of the U.S. government functions were not completed, I have not been paid yet or honored. I require being paid and honored, and I will not just say about this issue and have to have, as I requested in the past more than once, U.S. Attorneys and/or CPAs to do the work on the finances and laws involved so that the work done is regarded and followed-through with appropriately. To facilitate the process in the summer of 2024, I made claims concerning the United States and sent them in hard-copy form and electronically to the White House. These claims are not worked through yet and are still requiring to be worked through.

My claims are from before your times (quarter-century) in the White House previously, went through your times in the White House (2017-2020), went through the Biden times (2021-2024), and are back in your times since eight years and continuing (your White House times, Biden's White House times, and now your continuing times, which is eight years now and any further time added on in the next four years). You cannot just quickly deal with everything involved because what is involved will not be handled like that. You cannot just not deal with these areas because they will still be present requiring and concerning the United States. These are claims concerning the United States and not just involving you, your administration, any political-oriented person, or political party, and the United States will continue having vicarious liability. These areas are good and best for the United States, but also the United States has to be liable – accountable, responsible – for what people associated or not with the United States are causing concerning the United States before these areas are secured.

I am the discoverer of God's Miracle Cross, which was an authentic miracle I worked with since discovery in 1981. I communicated about this miracle cross to the White House since 1983. I went into law school in 1990 and had all issues come up after 10 years in 1991 during the first Iraq War. I made law cases in U.S. Courts in 1992 and which went into 1993 from the U.S. District Court for the Eastern District of Pennsylvania, to the U.S. Appeals Court for the Third Circuit, and to the U.S. Supreme Court, followed by my own God's Court that I established because I have a God's Miracle Cross (Dist. Ct. Case Number: 92-3242; Apls. Ct., 3rd Cir. Number: 92-1736; S.Ct. Number: 93-5183; and G.Ct. Number: 93-0001). These law cases still have to be completed with them being worked out. They cannot just be not worked out and have to be worked out satisfactorily according to the law involved. This law involved concerns now more than 40 years of rights and interests of people and the United States.

I received my MBA (Master of Business Administration) degree in 2006 from the University of Phoenix. My first published book came out at the same time, Dream Book: From the Book of Dreams (Second edition set as titled, "God's Miracle Cross Dream Book: from the Book of Dreams"). These were the times of the Second Iraq War. I went from the MBA program into the doctoral program. I completed the doctoral program on an A grade (GPA) level in 2012 and including with an excellent dissertation. The University of Phoenix did not do its required work on the doctoral program and left the doctorate unissued and unrewarded, although earned as of in 2012.

Through the next years, more advanced level doctoral work was done and to points of going beyond the bounds of the University of Phoenix to points of post-doctoral work and to the White House in 2017, 2018, and 2019. Student loans were also a national issue in these years. I established and advanced my student loans defense and included the student loans status in director reports I made to the White House. The public's student loans defenses accumulated tremendously, and after years of this accumulation, a class action law case was made in California. The class action law case was not one of my law cases, but I had some involvement because of my student loans defense, which made me a member of the class action law case, (*Sweet v. DeVos / Cardona, 2020, No. 19-cv-3674, N.D. Cal. United States District Court for the Northern District of California*). With my involvement and background, I communicated relevantly to the White House, to the PPSL (Project of Predatory Student Lending), and to the U.S. District Court in California. This class action law case eventually in 2024, after more than five years, led to the complete discharge of my approximately \$250,000 of student loans.

While the national student loans issue was continuing in 2019, I completed my post-doctoral dissertation. I continued making my U.S. Chief Executive Director reports to the White House. I

established the U.S. Department of Sovereignty, which was constitutionally based and more than 30 years requiring. Two additional branches of the Department of Sovereignty were set as the Department of Sovereign Services and the U.S. Space Agency. Of course, reports were made to the White House, and funding and staffing were requested also.

The funding and staffing were not followed through with for the Department, and I myself was not even paid any money. I did not receive any pay of my salary, and I did not receive any bonus money, either. No money was worked out for myself or the department. The situation was very difficult like this with there being no money worked out, although requested and when functioning in the modern U.S.A. society where money is extensively used and is very important. I myself and the department continued very successfully through the next years, but the money involved still has to be fully worked out, including officially by United States associated accountants, CPAs, and/or lawyers, as previously said. My original funding request was for my salary that went from more than \$100,000 yearly to up to more than \$200,000 yearly. The department money requested was \$3 billion for the year of 2020 and then accordingly on through the next years. As an additional note, a reasonable amount of debt is not opposed, but too much debt is not wanted or advised. The U.S. Department of Sovereignty continued since 2019 with no debt. Up to now in 2025, the U.S. Department of Sovereignty has no debt and does not owe anything to anyone or any organization or entity. This department is owed significantly right now but does not owe anything.

An additional notation is that I was the director of this department of the United States through the years since 2019, and I thus directed that United States department that has more than \$3 billion in assets. In these assets I am including money owed to the department, which as said previously was \$3 billion after 2020 and amounted to more than \$21 billion after 2024 when I then declared that I would not keep track further by myself and would have to have official United States staff, such as accountants and lawyers do the work.

I then kept working and working in these times of the years of 2020 to 2023. I already had insurance licensing, but now I added on securities. I added on securities licensing of what is called the SIE and then the Series 6, 63, 26, 65, and 7 securities licenses. I still was not dealt with, though, or rewarded, regarded, or honored.

At the same time, the University of Phoenix was still continuing with its rather questionable practices, and as was publicly proclaimed by the U.S. Department of Education in the times. I tried to work with the university to straighten out its situation before the university would

attempt to sell off the university to another university for \$500 million. The university regarded nothing, did not make good faith efforts to make the university a good product to sell, and continued with attempting to sell off the university for \$500 million to the other university. By the end of this university sale project, I substantially communicated formally about everything involved to the U.S. Department of Education, the PPSL, the university itself, and to the other university. This outcome is what resulted in my \$500 million claim I have against the University of Phoenix, which is one of the claims I have concerning the United States.

After all previously described, I still was not dealt with yet or paid. Out of all the work already done and the long amount of time of years (more than 30 years) gone through, I had to do more and go longer at the end of the year of 2023 and into 2024. That turned out to be too much for me physically and caused a healthcare incident in the first quarter of 2024. This healthcare incident area is the healthcare claim I have concerning the United States.

After adequately continuing recovery, I worked diligently making good faith effort in every direction. I did well with everything I did but still was not dealt with or paid. I went through June, July, and August like this, and in the middle of June 2024 I communicated to the White House about my claims I have concerning the United States. I specifically emphasized that my claims are not concerning a political party or a politically-oriented person but are concerning the United States. I requested that the claims be secured and advanced and that there be people, such as U.S. Attorneys, that work on these claims. I was left there still not dealt with or paid. I had to do more and go longer again.

My doctoral dissertation was done in 2012. I did not receive my doctorate yet. My post-doctoral dissertation was done in 2019. I did not receive my post-doctorate yet. I worked more on my dissertation, and because I already have in my background so much honorable law work I did, I made my dissertation into a doctoral law dissertation. Now with my law cases from 30 or so years ago dealt with up to date, I can receive just compensations of my lawyer's license and law degrees up to an S.J.D. (Doctor of Juridical Science) law degree from a qualified American law school such as Harvard Law School.

I did that doing more and going longer again. This situation is up to the present. I am continuing to mitigate. The situation would be better for all involved and for the United States if I was, and these issues were, dealt with, rewarded, and honored on the appropriate United States levels. I will keep watching along the way further. I will make my statements and reports accordingly. I will stay preservative and open to my claims concerning the United States being secured and

advanced. I will keep on as I have been and looking for any rewards and opportunities due me and for me to use accordingly.

Next my claims concerning the United States will follow.

- (1) God's Miracle Cross – United States – has to be nationally worked with since more than 30 years ago;
- (2) Law Cases with United States – U.S. Attorney has to be assigned to work with me on law cases for U.S. Courts and must communicate with me to advance the law involved;
- (3) United States Official Professional Position – Must be fully set officially with the United States, and some back-pay or a bonus has to be paid to me;
- (4) United States Past Debt to Me – Joseph Mallon – payments and arrangements have to be set and advanced in regard of the past more than 30 years of relevant and official work I did, including up to U.S. Chief Executive Director levels;
- (5) University of Phoenix Claim – \$500 million has to be paid to me;
- (6) Hospital Claim – \$109,441.71 discounted 80% leaving \$21,888.34 for United States to pay, plus work on healthcare advancement is needed and required on U.S. national levels;
- (7) Student Loans – Student Loans Defense Number: 01400527 – my approximately \$250 thousand student loans were fully, justly, successfully, and worthily discharged; I have a doctoral dissertation done in 2012 and earning my business law doctorate. I have a post-doctoral dissertation done in 2019 and earning my business post-doctorate. I have a law edition of my post-doctoral dissertation done in 2024, earning my law doctorate, and have to have secured a doctoral law degree such as an S.J.D. doctoral law degree from a qualified American law school such as Harvard Law School.

Claims concerning the United States
